[Docket No. CP25–491–000]

Texas Eastern Transmission, LP; Notice of Schedule for the Preparation of an Environmental Assessment for the Appalachia to Market III Project

On May 15, 2025, Texas Eastern Transmission, LP (Texas Eastern) filed an application in Docket No. CP25–491–000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities. The proposed project is known as the Appalachia to Market III Project (Project) and would provide about 32,000 dekatherms per day from the Appalachian supply basin in Southwest Pennsylvania to delivery points in Pennsylvania. According to Texas Eastern, the project would improve reliability on its system and provide incremental transportation capacity for precedent agreements with two local gas distribution companies to help them meet growing demand.

On May 27, 2025, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's environmental document for the Project.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) for the Project and the planned schedule for the completion of the environmental review.¹ The EA will be issued for a 30-day comment period.

Schedule for Environmental Review

Issuance of EA—October 10, 2025
