SUPPLEMENTARY INFORMATION:

Title: Gypsy Moth Identification Worksheet.

OMB Number: 0579-0104.

Type of Request: Extension of approval of an information collection.

Abstract: The United States Department of Agriculture (USDA) is responsible for, among other things, the control and eradication of plant pests. The Plant Protection Act (7 U.S.C. 7701-7772) authorizes the Department to carry out this mission.

As part of this mission, Plant Protection and Quarantine (PPQ) of the Animal and Plant Health Inspection Service (APHIS), USDA, engages in detection surveys to monitor for the presence of, among other things, the European gypsy moth and the Asian gypsy moth. The European gypsy moth was introduced into the United States in the 1860's and has been damaging woodland areas in the Northeast for more than the last 100 years. The Asian gypsy moth, which is not established in this country, is considered to pose an even greater threat to trees and forested areas.

Unlike the flightless European gypsy moth female adult, the Asian gypsy moth female adult is capable of strong directed flight between mating and egg deposition, significantly increasing its ability to spread over a much greater area and become widely established within a short time.

To determine the presence and extent of a European gypsy moth or an Asian gypsy moth infestation, we set traps in high-risk areas to collect specimens. Once an infestation is identified, control and eradication work (usually involving State cooperation) is initiated to eliminate the moths.

APHIS personnel, with assistance from State agriculture personnel, check traps for the presence of gypsy moths. If a suspicious moth is found in the trap, it is sent to APHIS laboratories at the Otis Methods Development Center in Massachusetts so that it can be correctly identified through DNA analysis. (Since the European gypsy moth and the Asian gypsy moth are strains of the same species, they cannot be visually distinguished from each other. DNA analysis is the only way to accurately identify these insects.)

The PPQ or State employee submitting the moth for analysis completes a gypsy moth identification

worksheet (PPQ Form 305), which accompanies the insect to the laboratory. The worksheet enables both Federal and State regulatory officials to identify and track specific specimens through the DNA identification tests that we conduct.

The information provided by the gypsy moth identification worksheets is vital to our ability to monitor, detect, and eradicate gypsy moth infestations.

We are asking the Office of Management and Budget (OMB) to approve our use of this information collection activity for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.1708 hours per response.

Respondents: State cooperators.

Estimated annual number of respondents: 120.

Estimated annual number of responses per respondent: 2.

Estimated annual number of responses: 240.

Estimated total annual burden on respondents: 41 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 27th day of December 2004.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

Food and Nutrition Service

Summer Food Service Program for Children; Program Reimbursement for 2005

AGENCY: Food and Nutrition Service, USDA.

ACTION: Notice.

SUMMARY: This notice informs the public of the annual adjustments to the reimbursement rates for meals served in the Summer Food Service Program for Children (SFSP). These adjustments reflect changes in the Consumer Price Index and are required by the statute governing the Program. In addition, further adjustments are made to these rates to reflect the higher costs of providing meals in the States of Alaska and Hawaii, as authorized by the William F. Goodling Child Nutrition Reauthorization Act of 1998.

EFFECTIVE DATE: January 1, 2005.

FOR FURTHER INFORMATION CONTACT:

Robert M. Eadie, Branch Chief, Policy and Program Development Branch, Child Nutrition Division, Food and Nutrition Service, U.S. Department of Agriculture, 3101 Park Center Drive, Room 640, Alexandria, Virginia 22302, (703) 305-2590.

SUPPLEMENTARY INFORMATION: This program is listed in the Catalog of Federal Domestic Assistance under No. 10.559 and is subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials (7 CFR part 3015, subpart V, and final rule related

notice published at 48 FR 29114, June 24, 1983).

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3518), no new recordkeeping or reporting requirements have been included that are subject to approval from the Office of Management and Budget.

This notice is not a rule as defined by the Regulatory Flexibility Act (5 U.S.C. 601-612) and thus is exempt from the provisions of that Act. Additionally, this notice has been determined to be exempt from review by the Office of Management and Budget under Executive Order 12866.

Definitions

The terms used in this Notice shall have the meaning ascribed to them in the regulations governing the Summer Food Service Program for Children (7 CFR part 225).

Background

In accordance with Section 13 of the National School Lunch Act (NSLA)(42 U.S.C. 1761) and the regulations governing the SFSP (7 CFR part 225), notice is hereby given of adjustments in Program payments for meals served to children participating in the SFSP in 2005. Adjustments are based on changes in the food away from home series of the Consumer Price Index (CPI) for All Urban Consumers for the period November 2003 through November 2004.

Section 104(a) of the William F. Goodling Child Nutrition Reauthorization Act of 1998 (Public Law 105-336) amended Section 12(f) of the NSLA (42 U.S.C. 1760(f)) to allow adjustments to SFSP reimbursement rates to reflect the higher cost of providing meals in the SFSP in Alaska and Hawaii. Therefore, this notice contains adjusted rates for Alaska and Hawaii. This change was made in an effort to be consistent with other Child Nutrition Programs, such as the National School Lunch Program and the School Breakfast Program, which already had the authority to provide higher reimbursement rates for programs in Alaska and Hawaii:
