### Food and Nutrition Service

*Title:* Uniform Grant Application for Non-Entitlement Discretionary Grants.

*OMB Control Number:* 0584–0512.

*Summary of Collection:* The Food and Nutrition Service (FNS) has a number of non-entitlement discretionary grant programs to collect the information from grant applicants needed to evaluate and rank applicants and protect the integrity of the grantee selection process. All FNS discretionary grant programs will be eligible, but not required to use the uniform grant application package. The authorities for these grants vary. The term “grant” in this submission refers only to non-entitlement discretionary competitive and non-competitive grants or cooperative agreements.

Discretionary grant announcements include a number of information collections, including the submission of associated State Plan information and the use of program-specific forms, including but not limited to, Form FNS–887 Farm to School Coversheet, the Farm to School Baseline Report, and the Farm to School Final Report; a “project description” (program narrative), budget information SF425, disclosure of lobbying activities certification SF LLL, and disclosure of Corporate Felony Convictions and Corporate Federal Tax Delinquencies. The requirements for the program narrative statement are based on the requirements for program narrative statements described in section 1.c (5) of OMB Circular A–102 and OMB A–110 (as implemented at USDA 7 CFR part 3015, 3016 and 3019); and will apply to all types of grantees; State and local governments, non-profit organizations, institutions of higher education, hospitals, and for-profit organizations.

If FNS decides to use the uniform grant application package, FNS will note in the grant solicitation that applicants must use the uniform grant application package and that the information collection has already been approved by OMB. If FNS decides not to use the uniform grant application package or determines that it needs grant applicants to provide additional information not contained in the uniform package, then FNS will publish at least a 30 day notice soliciting comments on its proposal to collect different or additional information

before making the grant solicitation, if not already discussed in previously published notices.

Through this **Federal Register** Notice, FNS is notifying the public of additional grants and forms added to this Information Collection Request (ICR) since the associated 60-day FR Notice was published on (April 19, 2022) at (87 FR 23160). *Need and Use of the Information:* The primary users of the information collected from the applicant are FNS and other Federal staff who will serve on a panel to systematically review, evaluate, and approve the competitive and non-competitive grant/cooperative agreement applications and recommend the applicants most likely to meet program objectives and most responsive to the solicitation. The selection criteria will be contained in the Request for Application package. Without this information, FNS will not have adequate data to select appropriate grantees or evaluate which grants should be continued or monitor financial reporting requirements.

**AGENCY:** Forest Service, Agriculture (USDA).

**ACTION:** Notice of opportunity to comment on environmental assessment for the Rainy River Withdrawal Application.

**SUMMARY:** The Forest Service, U.S. Department of Agriculture, has prepared an environmental assessment to support its application for a 20-year withdrawal of the Rainy River watershed from disposition of Federally owned minerals under United States mineral and geothermal leasing laws. The intent of the requested withdrawal is to protect

and preserve natural and cultural resources in the Rainy River watershed, including the Boundary Waters Canoe Area Wilderness (BWCAW), Mining Protection Area (MPA), and the 1854 Ceded Territory, from the known and potential adverse environmental impacts arising from exploration and development of Federally owned minerals. This notice is to inform the public that the Superior National Forest is initiating a 30-day period in which individuals or entities may submit comments relevant to the environmental assessment.

**DATES:** Comments concerning the environmental assessment must be received by July 28, 2022.

**ADDRESSES:** The environmental assessment and supporting documents are available on the project web page at <http://go.usa.gov/xtaCw>. Electronic comments are preferred through the project website at <https://go.usa.gov/xuH43>. Comments may also be sent electronically to [comments-eastern-superior@usda.gov](mailto:comments-eastern-superior@usda.gov). Written comments may be sent to Forest Headquarters, 8901 Grand Avenue Place, Duluth, MN 55808.

**FOR FURTHER INFORMATION CONTACT:** Matt Judd, Minerals Project Manager, at [matthew.judd@usda.gov](mailto:matthew.judd@usda.gov) or 218–626–4300. Individuals who use telecommunication devices for the deaf and hard of hearing (TDD) may call the Federal Relay Service (FRS) at 1–800–877–8339, 24 hours a day, every day of the year, including holidays.

#### SUPPLEMENTARY INFORMATION:

##### Purpose and Need for Action

The purpose of the requested withdrawal is to protect and preserve natural and cultural resources in the Rainy River watershed, including the BWCAW, MPA, and the 1854 Ceded Territory, from the known and potential adverse environmental impacts arising from exploration and development of Federally owned minerals. The withdrawal is needed because the Forest Service and the Bureau of Land Management (BLM) have seen and can reasonably anticipate increasing interest within the private sector for developing the copper-nickel ore minerals in the Duluth Complex that may adversely impact the Rainy River watershed.

##### Proposed Action

The Secretary of the Interior would issue a public land order, and approximately 225,504 acres of National Forest System lands in the Rainy River watershed would be withdrawn from disposition under the United States mineral and geothermal leasing laws for
