

program authorized under Section 123 of CERCLA to submit an application that demonstrates consistency with program eligibility requirements. This is necessary to ensure proper use of the Superfund. EPA reviews the information to ensure compliance with all statutory and program requirements. The applicants are local governments who have incurred expenses, above and beyond their budgets, for hazardous substance response. Submission of this information is voluntary and to the applicant's benefit.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on November 11, 2000, (65 FR 69510) and the comment period was extended on March 19, 2001, (66 FR 15427). No comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 9 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State, Local, or Tribal Government.

Estimated Number of Respondents: 200.

Frequency of Response: When costs are incurred.

Estimated Total Annual Hour Burden: 1800 hours.

Estimated Total Annualized Capital, Operating/Maintenance Cost Burden: \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through

the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1425.05 and OMB Control No. #2050-0077 in any correspondence.

Dated: June 20, 2001.

Oscar Morales,

Director, Collection Strategies Division.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 14, 2000 (65 FR 20157).

DRAFT EISs

ERP No. D-AFS-J08025-CO Rating EC2, Nucla-Telluride Transmission Line Project, Permit Approval and Funding for Construction and Operation of a 115 kV Transmission Line between the Nucla Substation in Montrose County and either the Telluride or Sunshine Substations in San Miguel County, CO.

Summary: EPA expressed environmental concern regarding impacts to wetlands and waters of the United States.

ERP No. D-AFS-J65336-MT Rating EC2, Lolo National Forest, Big Game Winter Range and Burned Area Management, Restoration, Prevention and Cooperation, Implementation, Missoula, Lake, Mineral, Sanders, Granite, Powell, Lewis and Clark, Flathead and Ravalli Counties, MT.

Summary: EPA expressed environmental concerns regarding potential herbicide transport to surface and ground waters. EPA recommended a monitoring plan for herbicides in sensitive waters to assess effectiveness of mitigation measures and that the FEIS include information regarding ground water depths in areas to be treated.

ERP No. D-AFS-J65341-MT Rating EC2, Little Bear-Wilson Timber Sale and Road Decommission Project, Implementation, Gallatin Range,

Gallatin National Forest, Bozeman Ranger District, Gallatin County, MT.

Summary: EPA expressed environmental concerns regarding the inclusion of timber harvest units in the degraded Wilson Creek Drainage, and recommended that additional mitigation be provided for reduction in sediment production or that these harvest units be dropped. EPA also believes additional information should be presented regarding aquatic monitoring, and impacts to the threatened lynx to fully assess and mitigate all potential impacts of the management actions.

ERP No. D-COE-G39033-LA Rating EC2, West Bay Sediment Diversion Channel Project, Construction, Funding, Plaquemines Parish, LA.

Summary: EPA has expressed environmental concerns and has requested additional information on project site selection, water quality, CWA Section 404(b) assessment, cost, comparative impact analysis, cumulative benefits, and cost sharing requirements.

ERP No. D-EDA-B99003-CT Rating EC2, Adriaen's Landing Project, Development from Columbus Boulevard south of the Founders Bridge and Riverfront Plaza, City of Hartford, CT.

Summary: EPA expressed concerns about the air quality analysis, and suggested measures to control construction vehicle emissions, traffic, odor, and requested a more comprehensive analysis of neighborhood noise impacts.

ERP No. D-FHW-F40391-IL Rating EC2, Illinois Route 3 (FAP-14) Relocation, Improved Transportation from Sauget to Venice, Funding, NPDES Permit and COE Section 404 Permit, Madison and St. Clair Counties, IL.

Summary: EPA agreed with the project's purpose and need, range of alternatives, and selection of a preferred alternative. EPA expressed concerns that the existing wetlands compensation site falls approximately 20 acres short of providing the full amount of compensatory wetlands needed to account for the project's anticipated wetland impacts.

ERP No. D-TVA-E65057-00 Rating EC2, Guntersville Reservoir Land Management Plan, Implementation, Proposal to Update a 1983 Land Allocation Plan, Jackson and Marshall Counties, AL and Marion County, TN.

Summary: EPA expressed concerns regarding the potential use and effects of timber harvesting on TVA reservoir lands and the potential for TVA's selection of Alternative B1 as their preferred alternative. EPA environmentally prefers B2 since it proposes less reservoir development.

Overall, we believe that TVA's economic stimulation and public benefits goals should still be contained within the context of environmental protection.

ERP No. D-UAF-D11048-VA Rating EC2, Initial F-22 Operational Wing Beddown Replacing the Existing F-15C at Langley (AFB) or one of the Four Alternative Locations, VA.

Summary: EPA expressed concern due to issues relating to noise, environmental justice, transportation, floodplains, and pollution prevention. EPA also recommended that the Air Force incorporate pollution prevention practices into the design of the proposed plan.

ERP No. DS-SFW-B82009-00 Rating EC2, Lake Champlain Sea Lamprey Control Long-Term Program, Proposal is to Achieve Fish Population, Recreational Fishery and Economic Benefits Associated with Reduced Sea Lamprey Predation Implementation, Clinton, Essex and Washington Counties, NY and Addison and Chittenden Counties, Counties, VT.

Summary: EPA expressed concerns about impacts to non-target species, requested information to describe how new waterbodies would be analyzed under NEPA, requested information to further explain the project purpose and need, suggested that the program include provisions for periodic re-evaluation, and highlighted the possibility that a NPDES permit may be required for lampricide applications.

Final EISs

ERP No. F-AFS-J65300-CO

Upper Blue Stewardship Project, Implementation of Vegetation Management, Travel Management, Designation of Dispersed Camping Sites, White River National Forest, Dillon Ranger District, Summit County, CO.

Summary: EPA's remaining concern is with development of three permanent clearings for ski runs in a lynx movement corridor.

ERP No. F-AFS-J65328-SD

Jasper Fires Value Recovery Area Project, Implementation, Revised Forest Plan for the Black Hills National Forest, Hell Canyon and Mystic Ranger District, Custer and Pennington Counties, SD.

Summary: EPA has remaining concerns about potential impacts to groundwater from activities in fractured limestone landscapes.

ERP No. F-AFS-J65329-MT

Maudlow—Toston Post-Fire Salvage Sale, Harvesting Burnt Timber, Implementation, Helena National

Forest, Townsend Ranger District, Broadway County, MT.

Summary: EPA expressed concerns about the dropping of road decommissioning from the selected alternative and loss of the associated beneficial watershed effects, and the lack of Hydrologic/aquatics monitoring for measurement to post-fire and post-salvage harvest aquatic conditions. EPA requested additional information to fully assess and mitigate potential impacts.

ERP No. F-USA-A10073-00

Programmatic EIS—Transportable Treatment Systems for Non-Stockpile Chemical Warfare Material (CWM), To Destroy Non-Stockpile in order to Protect Human, Health, Safety and the Environment, To Comply with the International Treaty, Nationwide.

Summary: EPA expressed environmental concerns regarding the risks and monitoring during the treatment of CWM. EPA recommended that DOD should address these issues at the site-specific level.

Dated: July 2, 2001.

Pesticide Program Dialogue Committee (PPDC); Inert Disclosure Stakeholder Workgroup; Notice of Public Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces a conference call meeting of the Inert Disclosure Stakeholder Workgroup. The workgroup was established to advise the Pesticide Program Dialogue Committee on ways of making information on inert ingredients more available to the public while working within the mandates of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and related Confidential Business Information concerns.

DATES: The meeting will be held by conference call on Wednesday, July 25, 2001, from 11 a.m. to 2 p.m. EST.

ADDRESSES: Members of the public may listen to the meeting discussions on site at: Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA; conference room 1123. Seating is limited and will be available on a first come first serve basis.

FOR FURTHER INFORMATION CONTACT: By mail: Cameo Smoot, Office of Pesticide Programs (7506C), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, N.W., Washington, DC 20460,
