SUPPLEMENTARY INFORMATION:

Background. The final phase of these investigations is being scheduled as a result of affirmative preliminary determinations by the Department of Commerce that imports of certain wax and wax/resin thermal transfer ribbons from France and Japan are being sold in the United States at less than fair value

¹ For purposes of these investigations, the Department of Commerce has defined the subject merchandise as wax and wax/resin thermal transfer ribbons (TTR) in slit or unslit ("jumbo") form with a total wax (natural or synthetic) content of all the image side layers, that transfer in whole or in part, of equal to or greater than 20 percent by weight and a wax content of the colorant layer of equal to or greater than 10 percent by weight, and a black color as defined by industry standards by the CIELAB (International Commission on Illumination) color specification such that $L^* < 35$, $-20 < a^* < 35$, and $-40 < b^* < 31$, and black and near-black TTR. TTR is typically used in printers generating alphanumeric and machine-readable characters, such as bar codes and facsimile machines.

Excluded from product coverage are: (1) Resin TTR; (2) finished thermal transfer ribbons with a width equal to or greater than 212 millimeters (mm), but not greater than 220 mm (or 8.35 inches and 8.66 inches) and a length of 230 meters (m) or less (i.e., slit fax TTR, including cassetted TTR; and (3) ribbons with a magnetic content of greater than 45 percent, by weight, in the colorant layer.

The imported products are provided for in heading 3702 and subheadings 3921.90.40 and 9612.10.90 (imported under statistical reporting numbers 3921.90.4025 and 9612.10.9030) of the Harmonized Tariff Schedule of the United States (HTS). The tariff classifications are provided for convenience and Customs and Border Protection (CBP) purposes; however, the written description of the products subject to investigation is dispositive.
