SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau plans to request a revision of the currently approved Office of Management and Budget (OMB) clearance of the Current Industrial Reports (CIR) for Wave I. The Census Bureau conducts a series of

monthly, quarterly, and annual surveys as part of the Current Industrial Reports (CIR) program. The CIR surveys deal mainly with the quantity and value of shipments of particular products and occasionally with data on production and inventories; unfilled orders, receipts, stocks and consumption; and comparative data on domestic production, exports, and imports of the products they cover. These surveys provide continuing and timely national statistical data on manufacturing. Individual firms, trade associations, and market analysts use the results of these surveys extensively in planning or recommending marketing and legislative strategies.

The CIR program includes both mandatory and voluntary surveys. Typically, the monthly and quarterly surveys are conducted on a voluntary basis and annual collections are mandatory. The collection frequency of individual CIR surveys is determined by the cyclical nature of production, the need for frequent trade monitoring, or the use of data in Government economic indicator series. Some monthly and quarterly CIR surveys have an annual "counterpart" collection. The annual counterpart collects annual data on a mandatory basis from those firms not participating in the more frequent collection.

Due to the large number of surveys in the CIR program, for clearance purposes, the CIR surveys are divided into "waves." One wave is resubmitted for clearance each year. This year the Census Bureau plans to submit mandatory and voluntary surveys of Wave I for clearance. The surveys included in Wave I are:

VOLUNTARY SURVEY

MA311D—Confectionery
MA325F—Paint and Allied Products
MA327C—Refractories
MA331B—Steel Mill Products
MA332Q—Antifriction Bearings
MA333A—Farm Machinery
MA333M—Air Conditioning and Refrigeration
MA333N—Fluid Power Products
MA335F—Major Household Appliances
MA335K—Wiring Devices and Supplies
*MQ325B—Fertilizer Materials
*MQ327D—Clay Construction Products
*MQ315B—Socks

*These voluntary surveys have mandatory annual counterparts.

II. Method of Collection

The Census Bureau will use mail out/mail back survey forms to collect data. We ask respondents to return monthly report forms within 10 days, quarterly report forms within 15 days, and annual report forms within 30 days of the
