

Abstract: Section 26(d) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1769g(d)), which was added to the Act by section 123 of Public Law 103-448 on November 2, 1994, mandated that FNS enter into a four-year contract with a non-governmental organization to establish and maintain an information clearinghouse (named "USDA National Hunger Clearinghouse" or "Clearinghouse") for groups that assist low-income individuals or communities regarding nutrition assistance programs or other assistance. Section 26(d) was amended by section 112 of Public Law 105-336 on October 31, 1998 to extend funding for the Clearinghouse (now called "National Hunger Clearinghouse" or "Clearinghouse") through fiscal year 2003. This Act was amended by section 128 of Public Law 108-265 on June 30, 2004, and provided increased funding for the Clearinghouse. FNS awarded this contract to the national hunger advocacy organization World Hunger Year (WHY) of New York, NY.

The Clearinghouse includes a database of non-governmental, grassroots programs that work in the areas of hunger and nutrition, as well as a mailing list of relevant local governmental agencies. Under the original contract, Clearinghouse staff established the database by reviewing relevant programs of organizations contained in several existing mailing lists. Program and mailing information about organizations culled from these lists were collected and entered into the database once each contract year (years one through four of the original contract and year one and two of the existing contract) through a series of electronically-processed survey questionnaires sent through the United States Postal Service. Clearinghouse staff followed up by phone or facsimile to ensure the highest possible return rate on the questionnaires. Surveys could also be completed on the World Wide Web. Returned surveys were scanned and data entered into the database. Survey questionnaires will continue to be sent out in the current contract. For this information collection, the following information was determined:

Estimate of the Burden: Public reporting burden for this collection of information is estimated to average five minutes for the survey (the survey includes one two-page instrument).

Respondents: The respondents are non-governmental organizations that have grassroots food and nutrition programs.

Estimated Number of Respondents: 1,750.

Estimated Number of Responses per Respondent: One response per respondent.

Estimated Total Annual Burden: 146 hours.

Dated: February 28, 2006.

Roberto Salazar,

Administrator.

SUPPLEMENTARY INFORMATION: The maximum loan and grant awards are determined in accordance with 7 CFR 1703.28. The maximum loan and grant awards are calculated as 3.0 percent of the projected program levels, rounded to the nearest \$10,000; however, as specified in 7 CFR 1703.28(b), regardless of the projected total amount that will be available, the maximum size may not be lower than \$200,000. The projected program level during FY 2006 for zero-interest loans is \$24,752,479, and the projected program level for grants is \$10,000,000. Applying the specified 3.0 percent to the program level for loans, rounded to the nearest \$10,000, results in the maximum loan award of \$740,000. Applying the specified 3.0 percent to the program level for grants results in an amount higher than \$200,000. Therefore, the maximum grant award for FY 2006 will be \$300,000. This notice will be amended should funding in excess of projected levels be received.

Drinking water systems are basic and vital to both health and economic development. Hurricanes Katrina, Rita, and Wilma severely damaged water systems in the states of Florida, Alabama, Mississippi, Louisiana, and Texas. Without dependable water supply, rural communities in these states will not attract families and businesses to return and invest in the hurricane damaged communities.

USDA Rural Development supports the sound development of rural communities and the growth of our economy without endangering the environment. It provides financial and technical assistance to help communities bring safe drinking water and sanitary, environmentally sound waste disposal facilities to rural Americans in greatest need. The additional funding for Water Resource Studies will allow rural communities to better plan and secure dependable water supplies for rebuilding their community's health and economic development. Qualified private non-profit organizations may apply to receive a grant to conduct Water Resource Studies to evaluate sources of dependable water supplies for communities in the hurricane affected states.
