All comments on the PAD and SD1, and study requests should be sent to the address above in paragraph h. In addition, all comments on the PAD and SD1, study requests, requests for cooperating agency status, and all communications to and from Commission staff related to the merits of the potential application must be filed with the Commission. All filings with the Commission must include on the first page, the project name (Narrows No. 2 Transmission Line Project) and number (P-2678-005), and bear the appropriate heading: "Comments on Pre-Application Document," "Study Requests," "Comments on Scoping Document 1," "Request for Cooperating Agency Status," or "Communications to and from Commission Staff." Any

individual or entity interested in submitting study requests, commenting on the PAD or SD1, and any agency requesting cooperating status must do so by September 4, 2011.

o. Although our current intent is to prepare a single EA, there is a possibility that a subsequent EA or an environmental impact statement (EIS) may be required. Nevertheless, this scoping document will satisfy the NEPA scoping requirements, irrespective of whether an EA or EIS is issued by the Commission.

Because of the limited scope of environmental issues associated with the Narrows No. 2 Transmission Line Project we do not anticipate holding formal public or agency scoping meeting near the project site. Instead, we will conduct paper scoping for the project.

Scoping Document 1 (SD1), which outlines the subject areas to be addressed in the environmental document, was mailed to the individuals and entities on the Commission's mailing list. Follow the directions for accessing information in paragraph n. Based on all oral and written comments, a Scoping Document 2 (SD2) may be issued. SD2 may include a revised process plan and schedule, as well as a list of issues, identified through the scoping process.

Dated: July 6, 2011.

Secretary.
