Background

The MSRA, signed into law by President Bush on January 12, 2007, set

forth new requirements related to overfishing, including new ACL and AM provisions for federally managed fisheries in the U.S. exclusive economic zone. NMFS initiated action through a notice of intent (NOI) to develop guidance related to these new provisions, specifically requirements set forth under sections 103(b)(1) and (c)(3), 104(a)(10), (b), and (c) of the MSRA. NMFS intends to revise the National Standard 1 (NS1) Guidelines, 50 CFR 600.310, through a proposed and final rule to incorporate guidance of these MSRA sections before the end of 2007. NMFS is seeking input on ACLs and AMs and related matters in the NS1 guidelines. More background related to this action is contained in the NOI published on February 14, 2007 (72 FR 7016), and is not repeated here.
