We invite the general public and other Federal agencies to comment on proposed and continuing information collections, which help us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on May 7, 2020, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Association (NOAA).

OMB Control Number: 0648–0441.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Needs and Uses: Owners of commercial fishing vessels in the Hawaii pelagic longline fishery, American Samoa pelagic longline fishery (only vessels longer than 50 feet), Northwestern Hawaiian Islands lobster fishery (currently inactive), and Northern Mariana Islands bottomfish fishery (only vessels longer than 40 feet) must allow the National Oceanic and Atmospheric Administration (NOAA) to install vessel monitoring system (VMS) units on their vessels when directed to do so by NOAA enforcement personnel. VMS units automatically send periodic reports on the position of the vessel. NOAA uses the reports to monitor the vessels' location and activities, primarily to enforce regulated fishing areas. NOAA pays for the units, installation, maintenance, and messaging. There is no public burden for the automatic messaging; however, the time required for VMS installation and annual maintenance are considered public burden.
