

above a size-exemption level. The sample data are used to derive universe estimates of direct investment transactions, positions, and income in nonbenchmark years from similar data reported in the BE-12, Benchmark Survey of Foreign Direct Investment in the United States, which is conducted every five years. The data collected through the BE-605 survey are essential for the preparation of the U.S. international transactions, national income and product, and input-output accounts and the net international investment position of the United States. The data are needed to measure the size and economic significance of foreign direct investment in the United States, measure changes in such investment, and assess its impact on the U.S. economy. The Bureau of Economic Analysis (BEA) is not proposing any changes to the BE-605 survey.

II. Method of Collection

Notice of specific reporting requirements, including who is to report, the information to be reported, the manner of reporting, and the time and place of filing reports, will be mailed to potential respondents each quarter. Reports are due 30 days after the close of each calendar or fiscal quarter, or 45 days if the report is for the final quarter of the respondent's financial reporting year. Reports are required from every U.S. business enterprise in which a foreign entity owns, directly and/or indirectly, 10 percent or more of the voting securities of the U.S. business enterprise if it is incorporated, or an equivalent interest if it is unincorporated, at any time during the quarter, and that meets the additional conditions detailed in Form BE-605. Certain private funds are exempt from reporting. Entities required to report will be contacted individually by BEA. Entities not contacted by BEA have no reporting responsibilities.

Potential respondents include those U.S. business enterprises that were required to report on the BE-12, Benchmark Survey of Foreign Direct Investment in the United States—2017, along with those U.S. business enterprises that subsequently have become at least partly foreign owned. BEA offers electronic filing through its eFile system (www.bea.gov/efile) for use in reporting on the BE-605 survey forms. In addition, BEA posts its survey forms and reporting instructions on its website (www.bea.gov/fdi).

We invite interested parties to comment on these preliminary results.

SUPPLEMENTARY INFORMATION:

Background

On November 6, 2014, Commerce published in the **Federal Register** the antidumping duty order on rebar from Mexico.¹ On November 1, 2022, Commerce published in the **Federal Register** a notice of opportunity to request administrative reviews of the *Order*.² On January 3, 2023, based on timely requests for review, in accordance with section 751(a)(1) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.221(c)(1)(i), Commerce initiated an administrative review of the *Order* covering 20 companies.³ On January 3, 2023, we selected Deacero Group⁴ and Grupo Acerero S.A. de C.V. (Acerero) for individual examination as the mandatory respondents in this administrative review.⁵ Pursuant to section 751(a)(3)(A) of the Act, Commerce extended the deadline for the preliminary results until November 3, 2023.⁶

For a complete description of the events that followed the initiation of the review, *see* the Preliminary Decision Memorandum.⁷ A list of topics included in the Preliminary Decision Memorandum is included in the appendix to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of

the Preliminary Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Scope of the Order

The merchandise subject to the *Order* is steel concrete reinforcing bar from Mexico. The rebar subject to the *Order* is currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 7213.10.0000, 7214.20.0000, 7228.30.8010, 7215.90.1000, 7215.90.5000, 7221.00.0017, 7221.00.0018, 7221.00.0030, 7221.00.0045, 7222.11.0001, 7222.11.0057, 7222.11.0059, 7222.30.0001, 7227.20.0080, 7227.90.6085, 7228.20.1000, and 7228.60.6000. While HTSUS subheadings are provided for convenience and Customs purposes, the written description of the scope of the *Order* is dispositive. For a complete description of the scope of the *Order*, *see* the Preliminary Decision Memorandum.

Methodology

Commerce is conducting this review in accordance with section 751(a) of the Act. Constructed export price was calculated in accordance with section 772 of the Act. Normal value was calculated in accordance with section 773 of the Act. For a full description of the methodology underlying our preliminary results, *see* the Preliminary Decision Memorandum.

Rate for Non-Selected Companies

For the rate for companies not selected for individual examination in an administrative review, generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in a less-than-fair-value (LTFV) investigation. Under section 735(c)(5)(A) of the Act, the all-others rate is normally “an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero or *de minimis* margins, and any margins determined entirely {on the basis of facts available}.” In this administrative review, we calculated weighted-average dumping margins for Deacero Group and Acerero that are not zero, *de minimis*, or based entirely on total facts available. For the respondents that were not selected for individual examination in this administrative review, we have assigned to them the weighted-average dumping margins calculated for Deacero Group and Acerero, consistent with the
