POLICY JUSTIFICATION**Japan - SM-2 Block IIIB STANDARD Missiles**

The Government of Japan has requested a possible sale for 24 SM-2 Block IIIB Tactical STANDARD missiles with MK 13 MOD 0 canisters; 24 AN/DKT-71A telemeters and conversion kits; containers; spare and repair parts; supply support; U.S. Government and contractor technical assistance and other related elements of logistics support. The estimated cost is \$40 million.

Japan is one of the major political and economic powers in East Asia and the Western Pacific and a key ally of the United States in ensuring the peace and stability of this region. The U.S. Government shares bases and facilities in Japan. It is vital to the U.S. national interest to assist Japan to develop and maintain a strong and ready self-defense capability, which will contribute to an acceptable military balance in the area. This proposed sale is consistent with these U.S. objectives and with the 1960 Treaty of Mutual Cooperation and Security.

The SM-2 missiles will be used on ships of the Japan Maritime Self Defense Force fleet and will provide enhanced capabilities in providing defense of critical sea-lanes of communication. Japan has already integrated the SM-2 Block IIIB into its ship combat systems. It maintains two Intermediate-Level Maintenance Depots capable of maintaining and supporting the SM-2. Japan will have no difficulty absorbing these additional missiles.

The prime contractor is Raytheon Company in Tucson, Arizona and the MK 13 Mod 0 canister's prime contractor is BAE Systems of Minneapolis, Minnesota. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Japan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
