[Docket No. USCG-2015-0569]

Drawbridge Operation Regulation; Willamette River, Portland, OR

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Morrison Bridge, mile 12.8, and the Hawthorne Bridge, mile 13.1, both crossing the Willamette River at Portland, OR. The deviation is necessary to accommodate Portland's Red, White, and Blues Run/Walk event. The deviation allows the bridges to remain in the closed-to-navigation position from 5 a.m. to 10 a.m. on July 5, 2015 to allow for the safe movement of event participants across the bridges.

DATES: This deviation is effective from 5 a.m. to 10 a.m. on July 5, 2015.

ADDRESSES: The docket for this deviation, [USCG-2015-0569] is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this deviation. You may also visit the Docket Management Facility in Room W12-140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Steven Fischer, Bridge Administrator, Thirteenth Coast Guard District;

SUPPLEMENTARY INFORMATION:

Multnomah County has requested that the Hawthorne and Morrison drawbridges across the Willamette River in Portland, OR remain closed to vessel traffic from 5 a.m. to 10 a.m. on July 5, 2015 to facilitate safe, uninterrupted roadway passage of event participants for the Red, White and Blues Run/Walk event.

The Morrison Bridge, mile 12.8, provides a vertical clearance of 69 feet in the closed position, and the Hawthorne Bridge, mile 13.1, provides 49 feet of vertical clearance in the closed position, all clearances are referenced to the vertical clearance above Columbia River Datum 0.0.

This deviation allows the Hawthorne and Morrison Bridges, across the Willamette River, to remain in the closed position and need not open for maritime traffic from 5 a.m. to 10 a.m. on July 5, 2015. Waterway usage on this part of the Willamette River includes vessels ranging from commercial tug and barge to small pleasure craft.

Vessels able to pass through the bridges in the closed positions may do so at any time. The bridges will be able to open for emergencies and there is no immediate alternate route for vessels to pass. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridges so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: June 17, 2015.

SUPPLEMENTARY INFORMATION:

Table of Acronyms

DHS Department of Homeland Security
FR **Federal Register**
NPRM Notice of Proposed Rulemaking
TFR Temporary Final Rule

A. Regulatory History and Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553, the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule. Waiting for a 30 day notice period to run would be impracticable. The Coast Guard did not receive the necessary information in

time for this regulation to undertake both an NPRM and a 30 day delayed effective date. Additionally, waiting for a 30 day notice period to run would be impracticable as delayed promulgation may result in injury or damage to persons and vessels from the hazards associated with fireworks displays.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register** due to the late notification of this event and because the event will have occurred before comments could have been taken.

B. Basis and Purpose

The legal basis for this proposed rule is: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05-1, 6.04-1, 6.04-6, and 160.5; Department of Homeland Security Delegation No. 0170.1; which collectively authorize the Coast Guard to establish regulatory safety zones for safety and environmental purposes.

Fireworks displays create hazardous conditions for the maritime public because of the large number of vessels that congregate near the displays, as well as the noise, falling debris, and explosions that occur during the event. Due to the presence of a fireworks show, a safety zone is necessary in order to reduce vessel traffic congestion in the proximity of fireworks discharge sites and to prevent vessel traffic within the fallout zone of the fireworks.

C. Discussion of the Temporary Final Rule

This rule establishes one safety zone in the Sector Columbia River Captain of the Port Zone.

The safety zone will encompass the waters included within a 500 foot radius at the following approximate location: 46°12'14" N; 123°23'17" W, along the Columbia River, in Cathlamet, WA. This safety zone will be effective on Saturday July 18, 2015 from 10:00 p.m. to 11:00 p.m.

D. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes and executive orders.

1. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of
