

Annual Cost Burden: \$10,163,100.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in 154(i) and 309 of the Communications Act of 1934, as amended.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: On December 18, 2007, the Commission adopted a Report and Order and Third Further Notice of Proposed Rulemaking ("the Diversity Order") in MB Docket Nos. 07-294; 06-121; 02-277; 04-228, MM Docket Nos. 01-235; 01-317; 00-244; FCC 07-217, which expands opportunities for participation in the broadcasting industry by new entrants and small businesses, including minority and women-owned businesses.

Currently, the media interests held by an individual or company with an equity and/or debt interest in an auction applicant are attributed to that applicant, for purposes of determining its eligibility for the new entrant bidding credit, if the equity and debt interests exceed 33 percent of the total asset value of the applicant. In order to make it easier for small businesses and new entrants to acquire broadcast licenses, and acquire the capital to compete in the marketplace with better financed companies, in the Diversity Order the Commission relaxed the rule standard, so to allow for higher investment opportunities in entities meeting the definition of "eligible entities." An "eligible entity" is defined as an entity that would qualify as a small business consistent with the Small Business Administration ("SBA") standards for its industry grouping, based on revenue.

Pursuant to the Diversity Order, the Commission will now allow the holder of an equity or debt interest in the applicant to exceed the above-noted 33 percent threshold without triggering attribution provided: (1) The combined equity or debt in the "eligible entity" is less than 50 percent, or (2) the total debt in the "eligible entity" does not exceed 80 percent and the interest holder does not hold any option to acquire an additional interest in the "eligible entity."

Consistent with actions taken by the Commission in the Diversity Order, a new question has been added to the new entrant bidding credit section of the broadcast auction application form. It simply requires applicants to make explicit any claim that they are "eligible entities," as a basis for claiming a bidding credit. The question states: "Does the applicant claim to be an

'eligible entity' as defined in 47 CFR 73.5008(c), for purposes of claiming eligibility for the new entrant bidding credit?" Additional information showing proof of compliance is not required at the pre-auction application stage. The Commission also foresees a new universe of respondents to the collection—those broadcast auction applicants claiming eligibility for the new entrant bidding credit based on their status as an "eligible entity."

The Commission auctions mutually exclusive applications for full power commercial AM and FM radio, television services, Instructional Television Fixed Services (ITFS), and all secondary commercial broadcast services (e.g., Low Power TV (LPTV), FM translators and television translators). The Commission requires the use of the FCC Form 175 (OMB Control Number 3060-0600) to participate in all broadcast auctions. Broadcast applicants are also required to submit certain exhibits, which are covered in this information collection as discussed below.

To facilitate the identification of groups of mutually exclusive applicants for non-table services which include the AM radio, LPTV, and TV/FM translator services, the Commission requires applicants to submit the engineering portions of the pertinent long-form application (FCC Form 301 (OMB Control Number 3060-0027), FCC Form 346 (OMB Control Number 3060-0016), or FCC Form 349 (OMB Control Number 3060-0405) necessary to determine mutual exclusivity.

In instances where analog television licensees file major modification applications, the Commission requires that such applicants also file the engineering data. These applicants are required to file the electronic versions of FCC Forms 301, 346 or 349.

Section 90.176 requires each Private Land Mobile frequency coordinator to provide, within one business day, a listing of their frequency recommendations to all other frequency coordinators in their respective pool, and if requested, an engineering analysis.

Any method can be used to ensure this compliance with the "one business day requirement" and must provide, at a minimum, the name of the applicant; frequency or frequencies recommended; antenna locations and heights; and effective radiated power; the type(s) of emissions; the description of the service area; and the date and time of the recommendation. If a conflict in recommendations arises, the effected coordinators are jointly responsible for taking action to resolve the conflict, up to and including notifying the Commission that an application may have to be returned.

This requirement seeks to avoid situations where harmful interference is created because two or more coordinators recommend the same

frequency in the same area at approximately the same time to different applicants.
