Pesticide Registration Review; Sulfuryl Fluoride Draft Interim Re-Entry Mitigation Measures and Registration Review Draft Risk Assessments for Sulfuryl Fluoride; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's Sulfuryl Fluoride Draft Interim Re-Entry Mitigation Measures and several registration review draft risk assessments for sulfuryl fluoride. Registration review is EPA's periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for registration, that is, that the pesticide can perform its intended function without causing unreasonable adverse effects on human health or the environment. Through this program, EPA is ensuring that each pesticide's registration is based on current scientific and other knowledge, including its effects on human health and the environment. EPA may pursue mitigation at any time during the registration review process if it finds that a pesticide poses unreasonable adverse effects to human health or the environment. To address human health incidents and in response to EPA's Office of Inspector General 2016 (OIG) Report, *Additional Measures Can Be Taken to Prevent Deaths and Serious Injuries From Residential Fumigations* (No. 17-P-0053), the EPA believes that the mitigation measures outlined in this Sulfuryl Fluoride Draft Interim Re-Entry Mitigation Measures are necessary to address identified human health risk concerns. The scope of this interim mitigation is focused on the use of sulfuryl fluoride as a structural fumigant in residential use sites. The Agency is also publishing several registration review risk assessments on sulfuryl fluoride for public comment.

DATES: Comments must be received on or before July 26, 2021.
