A key purpose of the Webcast meeting is to share information with stakeholders on decisions and requirements related to the Recovery Act and to provide agencies with best practices for implementation of the FFR and PPR. Generally, the purpose of the Webcast is to receive input from stakeholders to inform government efforts as they relate to streamlining and stewardship of Federal policy and practice relating to grants, cooperative agreements, and Federal financial assistance.

Meeting structure and agenda: The April 21st Webcast meeting will have the following structure and agenda:

- (1) GPC Update;

Background: The GPC is a committee of the U.S. Chief Financial Officers (CFO) Council. The Office of Management and Budget (OMB) sponsors the GPC; its membership consists of grants policy subject matter experts from across the Federal Government. The GPC is charged with improving the management of federal financial assistance government-wide. To carry out that role, the committee recommends financial assistance policies and practices to OMB and coordinates related interagency activities. The GPC serves the public interest in collaboration with other Federal Government-wide grants initiatives.
