

mitigate the impacts to the extent practicable.

4. Issuance of an ITP will not have significant effects on the human environment in the project areas.

5. The proposed take is incidental to an otherwise lawful activity.

6. Adequate funding will be provided to implement the measures proposed in the submitted HCP.

7. No adverse effects to historic sites will occur because of the requirement to: "At the Camp Creek project area, the active beach dune areas in which sites 8WL65 and 8WL105 are located will be left in their natural state with the exception of dune walkover/boardwalk access to the beach. Archaeological monitoring shall be employed during any dune walkover/boardwalk construction should such occur in or near the recorded site areas."

The Service will also evaluate whether the issuance of a Section 10(a)(1)(B) ITP complies with Section 7 of the Endangered Species Act by conducting an intra-Service Section 7 consultation. The results of the biological opinion, in combination with the above findings, will be used in the final analysis to determine whether or not to issue the ITP.
