Title: Asbestos-Containing Materials in Schools Rule and Revised Asbestos Model Accreditation Plan Rule.

ICR numbers: EPA ICR No. 1365.08, OMB Control No. 2070-0091.

ICR status: This ICR is currently scheduled to expire on January 31, 2008. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Asbestos Hazard Emergency Response Act (AHERA) requires LEAs to conduct inspections, develop management plans, and design or conduct response actions with respect to the presence of asbestos-containing materials in school buildings. AHERA also requires states to develop model accreditation plans for persons who perform asbestos inspections, develop management control plans, and design or conduct response actions. This information collection addresses the burden associated with recordkeeping requirements imposed on LEAs by the asbestos in schools rule, and reporting and recordkeeping requirements imposed on states and training providers related to the model accreditation plan rule.

Responses to the collection of information are mandatory (see 40 CFR part 763, subpart E). Respondents may claim all or part of a document confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to range between 5.5 hours and 140 hours per response, depending on the category of the respondent. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal Agency. This includes the time needed to review instructions; develop,

acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 125,691.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 2,530,600 hours.

Estimated total annual costs: \$76,352,159. This includes an estimated burden cost of \$76,352,159 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

IV. Are There Changes in the Estimates from the Last Approval?

There is a net increase of 45,160 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase reflects EPA's revised estimates of numbers of LEAs and of training providers. This change is an adjustment.

V. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION:

I. What Information is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
 2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
 3. Enhance the quality, utility, and clarity of the information to be collected.
 4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Provide specific examples to illustrate your concerns.
6. Offer alternative ways to improve the collection activity.
7. Make sure to submit your comments by the deadline identified under **DATES**.
8. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

III. What Information Collection Activity or ICR Does this Action Apply to?

Affected entities: Entities potentially affected by this action are establishments or organizations engaged in formulating, producing, purchasing or distributing surfactants or products containing surfactants.

Title: Safer Detergent Stewardship Initiative (SDSI) Program.

ICR numbers: EPA ICR No. 2261.01, OMB Control No. 2070-new.

ICR status: This ICR is for a new information collection activity. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: SDSI is a voluntary program administered by EPA to offer resources and recognition to businesses involved in the transition to safer surfactants. Surfactants are a major ingredient in

cleaning products such as detergents, cleaners, airplane deicers and fire-fighting foams. Safer surfactants are those that break down quickly to non-polluting compounds.

Under SDSI, businesses that have fully transitioned to safer surfactants, or (for non-profits, academic institutions, etc.) can document outstanding efforts to encourage the use of safer surfactants, are granted Champion status. At this level, the participant is invited to the SDSI Awards ceremony, listed on the EPA SDSI website as a champion, and may use a special logo in their literature to help explain their participation in the program. Businesses that commit to a full and timely transition to safer surfactants, or (for non-profits, academic institutions, etc.) can document outstanding efforts to encourage the use of safer surfactants, are granted Partner status. This category provides recognition of significant accomplishments towards the use of safer surfactants. Partners will be listed on the EPA SDSI website and may be granted recognition as a Champion in the future if appropriate.

This information collection addresses reporting activities that support the administration of the SDSI program.

Responses to this collection of information are voluntary. Respondents may claim all or part of a response confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 10 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal Agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 375.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 3,750 hours.

Estimated total annual costs: \$182,625. This includes an estimated burden cost of \$182,625 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

IV. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION: On August 8, 2005, President Bush signed the Energy Policy Act of 2005. Title XV, Subtitle B of this act, titled the Underground Storage Tank Compliance Act of 2005, contains amendments to Subtitle I of the Solid Waste Disposal Act. This is the first federal legislative change for the underground storage tank (UST) program since its inception over 20 years ago. The UST provisions of the law significantly affect federal and state UST programs, require major changes to the programs, and are aimed at further reducing UST releases to our environment. Among other things, the UST provisions of the Energy Policy Act require that states receiving funding under Subtitle I comply with certain requirements contained in the law. OUST worked, and is continuing to work, with its partners to develop grant guidelines that EPA regional tank programs will incorporate into states' grant agreements. The guidelines will provide states that receive UST funds with specific requirements, based on the UST provisions of the Energy Policy Act, for their state UST programs.

Sections 9005(c)(1) and 9005(c)(2) of Subtitle I of the Solid Waste Disposal Act, as amended by Section 1523 of the Energy Policy Act, require states that receive Subtitle I funding to ensure that USTs not inspected since December 22, 1998 have an on-site inspection before August 8, 2007 and subsequently
