In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for license for the Shawmut Hydroelectric Project (FERC No. 2322), the proposed Interim Species Protection Plan for the Shawmut Project, and the Final Species Protection Plan for the Lockwood Hydroelectric Project (FERC No. 2574), Hydro-Kennebec Hydroelectric Project (FERC No. 2611), and Weston Hydroelectric Project (FERC No. 2325) and has prepared a final environmental impact statement (EIS) for the projects. All four projects are located on the Kennebec River, in Kennebec and Somerset Counties, Maine.

The final EIS contains staff's analysis of the applicant's proposal and the alternatives for licensing the Shawmut Project, and amending the licenses for the Shawmut, Lockwood, Hydro-Kennebec, and Weston projects. The final EIS documents the views of governmental agencies, non-governmental organizations, affected Native-American tribes, the public, the license applicant, and Commission staff.

The Commission provides all interested persons with an opportunity to view and/or print the EIS via the internet through the Commission's Home Page (<https://www.ferc.gov/>), using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to
