

“Total Sugars” declaration, we could exclude them from the “Total Sugars” declaration, or we could adjust the gram amount of the “Total Sugars” declaration based on their caloric contribution to the diet. What considerations could inform our approach? Please explain your reasoning, and provide data or other information that would support these considerations and any recommended approach.

2. In the guidance regarding allulose, we discuss factors that we considered when determining whether a sugar should be excluded from the declaration of “Total Sugars,” including pH of dental plaque after consumption, caloric value, and glycemic and insulinemic response. What, if any, other factors impact whether a sugar should be excluded from the declaration of “Total Sugars”? Please provide any data or other information that supports your response.

#### C. Declaration of Added Sugars

1. We could take one of various approaches to account for sugars that are metabolized differently than traditional sugars in the declaration of “Added Sugars.” For example, we could require them to be declared within the “Added Sugars” declaration, we could exclude them from the “Added Sugars” declaration, or we could adjust the gram amount of the “Added Sugars” or the %DV declaration based on their caloric contribution to the diet. What considerations could inform our approach? Please explain your reasoning, and provide data or other information that would support these considerations and any recommended approach.

2. In the guidance regarding allulose, we discuss factors that we considered when determining whether a sugar should be excluded from the declaration of “Added Sugars,” including caloric value and glycemic and insulinemic response. What other factors, if any, impact whether a sugar should be excluded from the declaration of “Added Sugars”? Please provide any data or other information that supports your response.

3. We might adjust the %DV for “Added Sugars” for the U.S. population 4 years of age and older based on the caloric contribution of the sugar. For example:

Assume a product contains 5 g of sucrose and 10 g of another sugar with a caloric value of 2 kcal/g per serving.

Step 1. Calculate the Total Caloric Contribution of Sugars (amount of sucrose (g/serving) × caloric value

(kcal/g)) + (amount of other sugar (g/serving) × caloric value (kcal/g))

- a. Sucrose: 5 g/serving × 4 kcal/g (caloric value of sucrose) = 20 kcal/serving
- b. Other sugar: 10 g/serving × 2 kcal/g (caloric value of other sugar) = 20 kcal/serving
- c. Total Caloric Contribution = 20 kcal/serving (sucrose) + 20 kcal/serving (other sugar) = 40 kcal/serving

- Step 2. Calculate Total Amount of Sugars Adjusted for the Total Caloric Contribution (Total Caloric Contribution of Sugars (kcal/serving) ÷ 4 kcal/g))
- Amount of Sugars Adjusted for Caloric Contribution = 40 kcal/serving ÷ 4 kcal/g = 10 g-equivalent/serving
- Step 3. Calculate %DV for Added Sugars (Amount of Sugars Adjusted for Caloric Contribution (g-equivalent) ÷ 50 g/day (DV for Added Sugars for the general U.S. population 4 years of age and older) × 100))
- $$\%DV = (10 \text{ g-equivalent} \div 50 \text{ g/day}) \times 100 = 20\%$$

What considerations are there with respect to adjusting the %DV declaration based on the caloric contribution of the sugar?

#### D. Label Declarations

1. We currently require the disclosure of sugar alcohols and sugars that are metabolized differently than traditional sugars in the ingredient statement in accordance with § 101.4(a), but also allow for the voluntary declaration of sugar alcohols on the Nutrition Facts label (§ 101.9(c)(6)(iv)). Please provide any data or other information that we could consider when determining whether we should allow for the voluntary declaration on the Nutrition Facts label of sugars that are metabolized differently than traditional sugars.

2. Sugar alcohols fall into a separate category of labeling and are excluded from the “Total Sugars” and “Added Sugars” declarations. Please provide any data or other information that we could consider when determining whether sugars that are metabolized differently than traditional sugars should be combined with sugar alcohols into one declaration within the Nutrition Facts label.

3. If sugars that are metabolized differently than traditional sugars are excluded from the “Total Sugars” and “Added Sugars” declarations and are combined with sugar alcohols in a separate labeling category within the Nutrition Facts label, what names

would be scientifically appropriate for such a category? Please provide any data or other information that supports your recommendation.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Health Resources and Services Administration

#### National Vaccine Injury Compensation Program; List of Petitions Received

**AGENCY:** Health Resources and Services Administration (HRSA), Department of Health and Human Services (HHS).

**ACTION:** Notice.

**SUMMARY:** HRSA is publishing this notice of petitions received under the National Vaccine Injury Compensation Program (the Program), as required by the Public Health Service (PHS) Act, as amended. While the Secretary of HHS is named as the respondent in all proceedings brought by the filing of petitions for compensation under the Program, the United States Court of Federal Claims is charged by statute with responsibility for considering and acting upon the petitions.

**FOR FURTHER INFORMATION CONTACT:** For information about requirements for filing petitions, and the Program in general, contact Lisa L. Reyes, Clerk of Court, United States Court of Federal Claims, 717 Madison Place NW, Washington, DC 20005, (202) 357–6400. For information on HRSA’s role in the Program, contact the Director, National Vaccine Injury Compensation Program, 5600 Fishers Lane, Room 08N146B, Rockville, Maryland 20857; (301) 443–6593, or visit our website at: <http://www.hrsa.gov/vaccinecompensation/index.html>.

**SUPPLEMENTARY INFORMATION:** The Program provides a system of no-fault compensation for certain individuals who have been injured by specified childhood vaccines. Subtitle 2 of Title XXI of the PHS Act, 42 U.S.C. 300aa–10 *et seq.*, provides that those seeking compensation are to file a petition with the United States Court of Federal Claims and to serve a copy of the petition to the Secretary of HHS, who is named as the respondent in each proceeding. The Secretary has delegated this responsibility under the Program to HRSA. The Court is directed by statute

to appoint special masters who take evidence, conduct hearings as appropriate, and make initial decisions as to eligibility for, and amount of, compensation.

A petition may be filed with respect to injuries, disabilities, illnesses, conditions, and deaths resulting from vaccines described in the Vaccine Injury Table (the Table) set forth at 42 CFR 100.3. This Table lists for each covered childhood vaccine the conditions that may lead to compensation and, for each condition, the time period for occurrence of the first symptom or manifestation of onset or of significant aggravation after vaccine administration. Compensation may also be awarded for conditions not listed in the Table and for conditions that are manifested outside the time periods specified in the Table, but only if the petitioner shows that the condition was caused by one of the listed vaccines.

Section 2112(b)(2) of the PHS Act, 42 U.S.C. 300aa-12(b)(2), requires that “[w]ithin 30 days after the Secretary receives service of any petition filed under section 2111 the Secretary shall publish notice of such petition in the **Federal Register**.” Set forth below is a list of petitions received by HRSA on September 1, 2020, through September 30, 2020. This list provides the name of petitioner, city and state of vaccination (if unknown then city and state of person or attorney filing claim), and case number. In cases where the Court has redacted the name of a petitioner and/or the case number, the list reflects such redaction.

Section 2112(b)(2) also provides that the special master “shall afford all interested persons an opportunity to submit relevant, written information” relating to the following:

1. The existence of evidence “that there is not a preponderance of the evidence that the illness, disability, injury, condition, or death described in the petition is due to factors unrelated to the administration of the vaccine described in the petition,” and

2. Any allegation in a petition that the petitioner either:

a. “[S]ustained, or had significantly aggravated, any illness, disability, injury, or condition not set forth in the Vaccine Injury Table but which was caused by” one of the vaccines referred to in the Table, or

b. “[S]ustained, or had significantly aggravated, any illness, disability, injury, or condition set forth in the Vaccine Injury Table the first symptom or manifestation of the onset or significant aggravation of which did not occur within the time period set forth in

the Table but which was caused by a vaccine” referred to in the Table.

In accordance with Section 2112(b)(2), all interested persons may submit written information relevant to the issues described above in the case of the petitions listed below. Any person choosing to do so should file an original and three (3) copies of the information with the Clerk of the United States Court of Federal Claims at the address listed above (under the heading **FOR FURTHER INFORMATION CONTACT**), with a copy to HRSA addressed to Director, Division of Injury Compensation Programs, Healthcare Systems Bureau, 5600 Fishers Lane, 08N146B, Rockville, Maryland 20857. The Court’s caption (Petitioner’s Name v. Secretary of HHS) and the docket number assigned to the petition should be used as the caption for the written submission. Chapter 35 of title 44, United States Code, related to paperwork reduction, does not apply to information required for purposes of carrying out the Program.
