SUPPLEMENTARY INFORMATION:

Background

On January 14, 2015, the Department of Education (Department) published in the **Federal Register** (80 FR 1900) a notice inviting applications for five video description and captioning projects for fiscal year (FY) 2015 under the Educational Technology, Media, and Materials program, authorized under sections 674 and 681(d) of the Individuals with Disabilities Education Act (IDEA).

The purpose of the video description and captioning projects is to improve the learning opportunities for children with disabilities by providing access to television programming through high-quality video description and captioning. These projects support access to widely available television programs that are appropriate for use in the classroom setting and are not otherwise required to be captioned or described by the Federal Communications Commission (FCC). A table listing the FY 2015 video description and captioning projects follows:

FY 2015 awards under CFDA 84.327C	Grantee project name
H327C150001	Companion Enterprise, Inc., Tulsa, OK. <i>Project:</i> Narrative Television Network.
H327C150007	Bridge Multimedia, Inc., New York, NY. <i>Project:</i> Video Description for the Next Generation.
H327C150008	Bridge Multimedia, Inc., New York, NY. <i>Project:</i> Standards Aligned Video Description.
H327C150009	Closed Caption Latina, Corp., Winter Springs, FL. <i>Project:</i> Captions and Video Description: Educational Tools for Hispanic Children with Disabilities.
H327C170002 (Transferred from H327C150003)	Captionmax LLC, Minneapolis, MN. <i>Project:</i> Television Access for Preschool and Elementary School Children.

The Department also funds one project under CFDA 84.327N, Educational Technology, Media, and Materials for Individuals with Disabilities—Captioned and Described Educational Media, the Center for the Described and Captioned Media Program (DCMP). The purpose of the DCMP is to establish and operate an Accessible Learning Center that oversees the selection, acquisition, captioning, video description, and distribution of educational media through a free loan service for eligible users. The video description and captioning projects are required to use the DCMP's portal as a repository so that eligible users can easily access the video described and captioned media. The DCMP's project period started on October 1, 2016, and will end on September 30, 2021.

On April 2, 2020, the Department published a notice in the **Federal Register** (85 FR 18508) proposing an extension of the project period and a waiver of the requirements in 34 CFR 75.250, which prohibit project periods exceeding five years, as well as a waiver of the requirements in 34 CFR 75.261(a) and (c)(2), which allow the extension of a project period only if the extension does not involve the obligation of additional Federal funds. The proposed extension and waivers would enable the Secretary to provide additional funds to all five projects currently funded under CFDA number 84.327C for an additional period not beyond September 30, 2021.

Public Comment

No comments were submitted in response to our invitation in the notice of proposed waiver and extension of the project periods.

Final Waivers and Extensions

The Department is extending the end dates of the five video description and captioning projects to align with that of the DCMP, which ends on September 30, 2021, as it will receive its final year of funding in FY 2020. The Department does not believe that it is in the public interest to run a competition for CFDA 84.327C in FY 2020. Aligning the end dates of these project periods allows the Department to better coordinate the Description and Captioning program. Aligning the project periods of the video description and captioning projects and the DCMP also will improve coordination across projects, allow for more efficient use of the funding available to support these activities, and ensure easier access to a wider range and increasing numbers of captioned
