Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Proposed Project: Protocols for the Cross-Site Evaluation of the State Incentive Grant (SIG) Program (OMB No. 0930-0226, Revision)—SAMHSA's Center for Substance Abuse Prevention (CSAP) is charged with evaluating the State Incentive Cooperative Agreements for Community-Based Action, or State Incentive Grant (SIG) Program. States receiving SIG funds are to: (1) Coordinate, leverage and/or redirect, as appropriate, all substance abuse prevention resources within the State that are directed at communities, families, schools, and workplaces, and (2) develop a revitalized, comprehensive State-wide prevention strategy aimed at reducing drug use by youth. The ultimate aim of the SIG Program is to prevent substance abuse among youths, ages 12 to 17, and also young adults, age 18-25. The 41 States, along with the District of Columbia, Puerto Rico, and the Virgin Islands, that have received SIG grants are required to implement at the community level a range of substance abuse, community-based prevention programs and strategies, at least half of which meet the specifications of sound scientific research findings, such as the National Registry of Effective Programs. CSAP awarded about \$3 million per year for three years to each of five States in FY 1997 (Cohort I), fourteen States in FY 1998 (Cohort II), one State and the District of Columbia in FY 1999 (Cohort III), seven states in FY 2000 (Cohort IV), eight states and Puerto Rico in FY 2001 (Cohort V), four states in FY 2002 (Cohort VI) and two states and the Virgin Islands in FY 2003 (Cohort VII).

CSAP is conducting a national, cross-site evaluation of the SIG Program, consisting of a process and an outcome evaluation. The outcome evaluation will address two questions: (1) "Has the SIG Program had an impact on youth substance abuse?" and (2) "How do SIG States differ in their impact on youth
