

rockfish to one fish, the establishment of voluntary no-take marine reserves, and the 2004 regulation restricting spear and recreational fishing for rockfish to periods when fisheries are open for lingcod and hatchery Chinook salmon. We recognize that the petitioner believes that WDFW could enact regulations to further protect Puget Sound rockfish stocks. However, the fishing regulations the petitioner criticizes represent a reduction from previous fishing levels, and do not portend an increasing threat due to fishing bycatch and mortality.

The petitioner is particularly concerned that the production of hatchery Chinook salmon in Puget Sound negatively affects rockfish stocks through the competition for limited food resources. The petitioner also feels that harvest directed at hatchery Chinook salmon results in significant bycatch of rockfish. However, he has presented no information in the petition to provide support for these contentions.

Petition Finding

After reviewing the information contained in the petition, as well as information readily available to our scientists, we determine that the petition fails to present substantial scientific or commercial information indicating the petitioned actions may be warranted.

Federal Acquisition Regulation; Submission for OMB Review; Contract Financing

AGENCIES: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice of request for public comments regarding an extension to an existing OMB clearance (9000-0138).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Federal Acquisition Regulation (FAR) Secretariat has submitted to the Office of Management and Budget (OMB) a request to review and approve an extension to a currently approved information collection requirement concerning contract financing. A request for public comments was published in the **Federal Register** at 72 FR 31815, June 8, 2007. No comments were received.

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

DATES: Submit comments on or before November 5, 2007.

ADDRESSES: Submit comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: FAR Desk Officer, OMB, Room 10102, NEOB, Washington, DC
