SUPPLEMENTARY INFORMATION:

I. Notice of the Application for Expansion

OSHA is providing notice that TUVRNA is applying for expansion of the scope of recognition as a NRTL. TUVRNA requests the addition of one test standard to the NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition.

Each NRTL's scope of recognition includes (1) the type of products the NRTL may test, with each type specified by the applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes an application by a NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A, 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding. In the second notice, the agency provides final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including TUVRNA, which details the NRTL's scope of recognition. These pages are available from the OSHA website at <http://www.osha.gov/dts/otpc/nrtl/index.html>.

TUVRNA currently has nine facilities (sites) recognized by OSHA for product testing and certification, with its headquarters located at: TUV Rheinland of North America, Inc., 12 Commerce Road, Newtown, Connecticut 06470. A complete list of TUVRNA sites recognized by OSHA is available at <https://www.osha.gov/dts/otpc/nrtl/tuv.html>.

II. General Background on the Applications

TUVRNA submitted two applications, one dated March 30, 2016 (OSHA-2007-0042-0030) and another dated April 19, 2017 (OSHA-2007-0042-0031), to expand the scope of recognition to include the addition of four recognized testing and certification sites and the addition of two test standards to its scope of recognition. OSHA preliminarily determined that OSHA should grant the applications for expansion.

OSHA published a **Federal Register** notice (83 FR 3662), July 20, 2018 announcing these applications, but referenced one incorrect standard in the listing of appropriate test standards (UL 698A). OSHA further published a **Federal Register** notice (84 FR 26160 June 5, 2019) granting recognition for the four sites and the two additional
