## NATIONAL SCIENCE FOUNDATION

### Agency Information Collection Activities: Comment Request

**AGENCY:** National Center for Science and Engineering Statistics, National Science Foundation.

**ACTION:** Notice.

**SUMMARY:** The National Center for Science and Engineering Statistics (NCSES) within the National Science Foundation invites the general public and other federal agencies to comment on a proposed information collection. NCSES plans to collect information from individuals to fulfill its data security requirements when providing the individual with access to restricted use microdata for the purpose of evidence building. NCSES's data security agreements and other paperwork along with the corresponding security protocols allow the agency to maintain careful controls on confidentiality and privacy, as required by law. The purpose of this notice is to allow for 60 days of public comment on the proposed data security information collection, prior to submission of the information collection request (ICR) to the Office of Management and Budget (OMB).

**DATES:** Written comments on this notice must be received by December 30, 2022 to be assured of consideration.

Comments received after that date will be considered to the extent practicable. Send comments to the address below.

**Comments:** Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of NCSES, including whether the information will have practical utility; (b) the accuracy of NCSES estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, use, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

#### FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite W18253, Alexandria, Virginia 22314; telephone (703) 292–7556; or send email to [splimpto@nsf.gov](mailto:splimpto@nsf.gov). Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

**SUPPLEMENTARY INFORMATION:** The Foundations for Evidence-Based Policymaking Act of 2018 mandates that the Office of Management and Budget (OMB) establish a Standard Application Process (SAP) for requesting access to certain confidential data assets. While the adoption of the SAP is required for statistical agencies and units designated under the Confidential Information Protection and Statistical Efficiency Act of 2018, it is recognized that other agencies and organizational units within the Executive branch may benefit from the adoption of the SAP to accept applications for access to confidential data assets. The SAP is to be a process through which agencies, the Congressional Budget Office, State, local, and Tribal governments, researchers, and other individuals, as appropriate, may apply to access confidential data assets held by a federal statistical agency or unit for the purposes of developing evidence. With the Interagency Council on Statistical Policy (ICSP) as advisors, the entities upon whom this requirement is levied are working with the SAP Project Management Office (PMO) and with OMB to implement the SAP. The SAP Portal is to be a single web-based

common application for requesting access to confidential data assets from federal statistical agencies and units. NCSES submitted a **Federal Register** Notice in September 2022 announcing plans to collect information through the SAP Portal (87 FR 53793).

Once an application for confidential data is approved through the SAP Portal, NCSES will collect information to meet its data security requirements. This collection will occur outside of the SAP Portal.

**Title of collection:** Data Security Requirements for Accessing Confidential Data.

**OMB Control Number:** 3145–NEW.

**Expiration Date of Current Approval:** Not Applicable.

**Type of Request:** Intent to seek approval to collect information to fulfill NCSES's security requirements allowing individuals to access confidential data assets for the purposes of building evidence.

**Abstract:** Title III of the Foundations for Evidence-Based Policymaking Act of 2018 (hereafter referred to as the Evidence Act) mandates that OMB establish a Standard Application Process (SAP) for requesting access to certain confidential data assets. Specifically, the Evidence Act requires OMB to establish a common application process through which agencies, the Congressional Budget Office, State, local, and Tribal governments, researchers, and other individuals, as appropriate, may apply for access to confidential data assets collected, accessed, or acquired by a statistical agency or unit. This new process will be implemented while maintaining stringent controls to protect confidentiality and privacy, as required by law.

Data collected, accessed, or acquired by statistical agencies and units is vital for developing evidence on the characteristics and behaviors of the public and on the operations and outcomes of public programs and policies. This evidence can benefit the stakeholders in the programs, the broader public, as well as policymakers and program managers at the local, State, Tribal, and National levels. The many benefits of access to data for evidence building notwithstanding, NCSES is required by law to maintain careful controls that allow it to minimize disclosure risk while protecting confidentiality and privacy. The fulfillment of NCSES's data security requirements places a degree of burden on individuals, which is outlined below.

The SAP Portal is a web-based application to allow individuals to

request access to confidential data assets from federal statistical agencies and units. The objective of the SAP Portal is to broaden access to confidential data for the purposes of evidence building and reduce the burden of applying for confidential data. Once an individual's application in the SAP Portal has received a positive determination, the data-owning agency(ies) or unit(s) will begin the process of collecting information to fulfill their data security requirements.

The paragraphs below outline the SAP Policy, the steps to complete an application through the SAP Portal, and the process NCSES uses to collect information fulfilling its data security requirements.

*The SAP Policy:* At the recommendation of the ICSP, the SAP Policy establishes the SAP to be implemented by statistical agencies and units and incorporates directives from the Evidence Act. The policy is intended to provide guidance as to the application and review processes using the SAP Portal, setting forth clear standards that enable statistical agencies and units to implement a common application form and a uniform review process. The SAP Policy was submitted to the public for comment in January 2022 (87 FR 2459). The policy is currently under review and has not yet been finalized.

*The SAP Portal:* The SAP Portal is an application interface connecting applicants seeking data with a catalog of metadata for data assets owned by the federal statistical agencies and units. The SAP Portal is not a new data repository or warehouse; confidential data assets will continue to be stored in secure data access facilities owned and hosted by the federal statistical agencies and units. The Portal will provide a streamlined application process across agencies, reducing redundancies in the application process. This single SAP Portal will improve the process for applicants, tracking and communicating the application process throughout its lifecycle. This reduces redundancies and burden on applicants who request access to data from multiple agencies. The SAP Portal will automate key tasks to save resources and time and will bring agencies into compliance with the Evidence Act statutory requirements.

*Data Discovery:* Individuals begin the process of accessing restricted use data by discovering confidential data assets through the SAP metadata catalog maintained by federal statistical agencies at [www.researchdatagov.org](http://www.researchdatagov.org). Potential applicants can search by agency, topic, or keyword to identify data of interest or relevance. Once they

have identified data of interest, applicants can view metadata outlining the title, description or abstract, scope and coverage, and detailed methodology related to a specific data asset to determine its relevance to their research.

While statistical agencies and units shall endeavor to include information in the SAP metadata catalog on all confidential data assets for which they accept applications, it may not be feasible to include metadata for some data assets (e.g., potential special tabulations of administrative data). A statistical agency or unit may still accept an application through the SAP Portal even if the requested data asset or special tabulation is not listed in the SAP metadata catalog.

*SAP Application Process:* Individuals who have identified and wish to access confidential data assets will be able to apply for access through the SAP Portal when it is released to the public in late 2022. Applicants must create an account and follow all steps to complete the application. Applicants begin by entering their personal, contact, and institutional information, as well as the personal, contact, and institutional information of all individuals on their research team. Applicants provide summary information about their proposed project to include project title, duration, funding, and timeline. Other details provided by applicants include the data asset(s) they are requesting and any proposed linkages to data not listed in the SAP metadata catalog, including non-federal data sources. Applicants then enter detailed information regarding their proposed project, including a project abstract, research question(s), literature review, project scope, research methodology, project products, and anticipated output. Within the application, applicants must demonstrate a need for confidential data, outlining why their research question cannot be answered using publicly available information.

*Submission for Review:* Upon submission of their application, applicants will receive a notification that their application has been received and is under review by the data-owning agency or agencies (in the event where data assets are requested from multiple agencies). At this point, applicants will also be notified that application approval does not alone grant access to confidential data, and that, if approved, applicants must comply with the data-owning agency's security requirements outside of the SAP Portal, which may include a background check.

In accordance with the Evidence Act and the direction of the ICSP, agencies

will approve or reject an application within a prompt timeframe. In some cases, agencies may determine that additional clarity, information, or modification is needed and request the applicant to "revise and resubmit" their application.

Data discovery, the SAP application process, and the submission for review are planned to take place within the web-based SAP Portal. As noted above, the notice announcing plans to collect information through the SAP Portal has been published separately (87 FR 53793).

*Access to Restricted Use Data:* In the event of a positive determination, the applicant will be notified that their proposal has been accepted. The positive or final adverse determination concludes the SAP Portal process. In the instance of a positive determination, the data-owning agency (or agencies) will contact the applicant to provide instructions on the agency's security requirements that must be completed by the applicant to gain access to the confidential data. The completion and submission of the agency's security requirements will take place outside of the SAP Portal.

*Collection of Information for Data Security Requirements:* In the instance of a positive determination for an application requesting access to an NCSES-owned confidential data asset, NCSES will contact the applicant(s) to initiate the process of collecting information to fulfill its data security requirements. This process allows NCSES to place the applicant(s) in a trusted access category and includes the collection of the following information from applicant(s):

- **Restricted-use licensing agreement**—This document is an agreement between NCSES and the applicant's organization provisioning NCSES's confidential data assets exclusively for statistical purposes in accordance with the terms and conditions stated in the agreement and all prevailing laws and regulations. The agreement requires signatures from the applicant(s) and a senior official at the applicant's organization who has the authority to enter the organization into a legal agreement with NCSES.
- **Security plan form**—This document requests information from the applicant(s) to ensure the confidential data assets are protected from unauthorized access, disclosure, or modification. The information collected in the security plan form includes the following:
  - planned work location address(es),

- workstation specifications (make, model, serial number, type, and operating system),

- workstation authorized users,
- workstation monitor position (to prevent unauthorized viewing), and
- workstation antivirus brand and version.

In addition, the applicant(s) must initial a series of security measures to indicate compliance. Finally, the form requires signatures from the applicant(s), a senior official at the applicant's organization, and a System Security Officer (SSO) at the applicant's organization. The SSO, in signing the Security plan form, assures the inspection and integrity of the applicant's security plan.

- **Affidavit of nondisclosure form**—This document describes the confidentiality protections the applicant(s) must uphold and the penalties for unauthorized access or disclosure. The form requires signatures from the applicant(s) and the principal researcher for the project as well as the imprint of a notary public.

**Estimate of Burden:** The amount of time to complete the agreements and other paperwork that comprise NCSES's security requirements will vary based on the confidential data assets requested. To obtain access to NCSES confidential data assets, it is estimated that the average time to complete and submit NCSES's data security agreements and other paperwork is 30 minutes. This estimate does not include the time needed to complete and submit an application within the SAP Portal. All efforts related to SAP Portal applications occur prior to and separate from NCSES's effort to collect information related to data security requirements.

The expected number of applications in the SAP Portal that receive a positive determination from NCSES in a given year may vary. Overall, per year, NCSES estimates it will collect data security information for 20 application submissions that received a positive determination within the SAP Portal. NCSES estimates that the total burden for the collection of information for data security requirements over the course of the three-year OMB clearance will be about 30 hours and, as a result, an average annual burden of 10 hours.

Dated: October 26, 2022.

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 72-51, 72-1014, 50-247, and 50-286; NRC-2022-0152]

### Holtec Decommissioning International, LLC; Indian Point Energy Center; Independent Spent Fuel Storage Installation

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Environmental assessment and finding of no significant impact; issuance.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is considering an exemption request from Holtec Decommissioning International, LLC (HDI) for the Indian Point Energy Center Independent Spent Fuel Storage Installation. This exemption would, if granted, allow HDI to load up to three MPC-32Ms, using Amendment No. 15 for Certificate of Compliance (CoC) No. 1014 for the HI-STORM 100 storage system, with either up to thirty-two fuel assemblies having either Californium (Cf-252) or Antimony-Beryllium (Sb-Be) neutron source assemblies (NSAs) with sufficient cooling time, or a combination of up to five fuel assemblies having primary Plutonium Beryllium (Pu-Be) NSAs and the remaining basket locations with fuel assemblies having either Cf-252 or Sb-Be NSAs with sufficient cooling time. As discussed further, the proposed exemption would permit HDI to load the fuel assemblies having either Cf-252 or Sb-Be NSAs in any location in the basket and the fuel assemblies having Pu-Be NSAs such that one is located in the center of the basket and one is located in each of the four basket quadrants. The NRC prepared an environmental assessment (EA) and concluded that the proposed action would have no significant environmental impact. Accordingly, the NRC staff is issuing a finding of no significant impact (FONSI) associated with the proposed exemption.

**DATES:** The EA and FONSI referenced in this document are available October 31, 2022.

**ADDRESSES:** Please refer to Docket ID NRC-2022-0152 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- **Federal Rulemaking Website:** Go to <https://www.regulations.gov> and search for Docket ID NRC-2022-0152. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann;

telephone: 301-415-0624; email: [Stacy.Schumann@nrc.gov](mailto:Stacy.Schumann@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- **NRC's Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov). For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the "Availability of Documents" section.

- **NRC's PDR:** You may examine and purchase copies of public documents, by appointment, at the NRC's PDR, Room P1 B35, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. To make an appointment to visit the PDR, please send an email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov) or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:** Chris Allen, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555; telephone: 301-415-6877; email: [William.Allen@nrc.gov](mailto:William.Allen@nrc.gov).

## SUPPLEMENTARY INFORMATION:

### I. Introduction

The NRC is reviewing an exemption request from Holtec Decommissioning International, LLC (HDI) dated March 24, 2022, as supplemented via a June 16, 2022, Microsoft Teams conversation and a September 20, 2022, Microsoft Teams call. Therefore, as required by sections 51.21 and 51.30(a) of title 10 of the *Code of Federal Regulations* (10 CFR), the NRC performed an environmental assessment (EA). Based on the results of the EA, discussed further, the NRC has determined not to prepare an environmental impact statement for the exemption request and is issuing a finding of no significant impact (FONSI).

In its exemption request, HDI stated that it intends to store Pressurized Water Reactor spent fuel at the Indian Point Energy Center Independent Spent Fuel Storage Installation (ISFSI) using the HI-STORM 100 storage system, Certificate of Compliance (CoC) No. 1014, Amendment No. 15 under the
