Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Respondents may request that we withhold a respondent's identity, as allowable by law. If you wish us to withhold your name or address, you must state this request prominently at the beginning of your comment. We will not, however, consider anonymous comments. To the extent consistent with applicable law, we will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety. Comments and materials received will be available for public inspection, by appointment, during normal business hours at our New Mexico Ecological Services Field Office (see **ADDRESSES**).

To ensure that we have conducted a transparent process that is based on the best available scientific and commercial information throughout the development of the 5-Year Review and to inform our subsequent decision to continue, continue with modification, or terminate the Reintroduction Project, we are soliciting written comments on the 5-Year Review from the public, concerned governmental agencies, Tribes, the scientific community, industry, environmental entities, and any other interested parties. The Administrative, Technical, and Socioeconomic components of the 5-

Year Review have undergone extensive public review under the oversight of the AMOC. The Service is specifically interested in comments from the public pertaining to the Recommendations and whether they follow logically from the background information and analyses provided in the Administrative, Technical, and Socio-economic components. However, comments on all components of the 5-Year Review received by the date specified above will be considered prior to the Service's decision to continue, continue with modifications, or terminate the Reintroduction Project. This 5-Year Review should not be confused with status reviews (also called 5-year reviews) conducted under section 4(c)(2)(A) of the Act. This is a 5-year program evaluation of the Reintroduction Project as required by the section 10(j) final rule (63 FR 1752).
