II. Background Information and Regulatory History

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because it is impracticable.

On March 24, 2022, the Coast Guard issued a General Deviation for 180 days which allowed the bridge owner to deviate from the current operating schedule in 33 CFR 117.732(b) to repair the bridge. This deviation letter can be found in this Docket as supporting documentation. Due to delays in procuring materials for replacement of the bridge control system the project ran past the allotted 180 days. The work cannot stop and needs to continue in order to bring the bridge back to normal operation. Therefore, there is lack of sufficient time to provide a reasonable comment period and then consider those comments before issuing the modification.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making it effective in less than 30 days after publication in the **Federal Register**. For reasons presented above, delaying the effective date of this rule would be impracticable and contrary to the public interest given the need to complete repairs to the bridge which are already underway and preventing full operation.

III. Legal Authority and Need for the Rule

The Coast Guard is issuing this rule under authority 33 U.S.C. 499. The Coast Guard is modifying the operating schedule that governs the PATH Bridge across Hackensack River, mile 3.0, at Jersey City, New Jersey. The PATH Bridge is a vertical lift bridge offering mariners a vertical clearance of 40 feet at mean high water and 45 feet at mean low water in the closed position.

The existing drawbridge regulations are listed at 33 CFR 117.723(b). The Port Authority Trans-Hudson Corporation, the bridge owner, has requested this modification as additional time is
