Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Stationary Compression Ignition Internal Combustion Engines (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NSPS for Stationary Compression Ignition Internal Combustion Engines (EPA ICR Number 2196.07, OMB Control Number 2060–0590), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed

extension of the ICR, which is currently approved through May 31, 2022. Public comments were previously requested, via the **Federal Register** (86 FR 8634), on February 8, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before June 2, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2020–0666, to EPA online using <https://www.regulations.gov> (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be confidential business information or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

Abstract: The New Source Performance Standards (NSPS) for Stationary Compression Ignition Internal Combustion Engines (40 CFR part 60, subpart IIII) regulations apply to manufacturers, owners, and operators of new stationary compression ignition internal combustion engines. In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

Form Numbers: Form 5900–558.

Respondents/affected entities:

Manufacturers, owners, and operators of new stationary compression ignition internal combustion engines.

Respondent's obligation to respond:

Mandatory (40 CFR part 60, subpart IIII).

Estimated number of respondents:

207,240 (total).

Frequency of response: Annually.

Total estimated burden: 408,000

hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$48,400,000 (per year), which includes \$242,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is no significant change in burden from the most-recently approved ICR. The change in burden is primarily due to an increase in the total number of sources and correction of calculation errors in the most-recently approved ICR. First, the number of respondents was updated to reflect new respondents based on continuous growth within the stationary CI engine industry. However, this ICR also corrects errors from the currently-approved ICR, including the number of manufacturers conducting certification recordkeeping and the total number of stationary CI engines. The number of manufacturers conducting certification recordkeeping has been adjusted downwards to reflect that this applies to those engine families for which manufacturers are requesting certification annually. The total number of stationary CI engines is adjusted to reflect growth that was not incorporated in the currently approved ICR, and more accurately reflects the number of respondents submitting an annual report. Due to these adjustments, there is an overall decrease in burden, although the rounded burden hours

have not changed from the prior ICR. There was no change in capital costs. This ICR also adjusts the operation and maintenance costs to reflect more accurately the cost assumptions for certification activities, based on documentation from the final rules and as applied to the current estimate of respondents. The overall result is an increase in costs.

Courtney Kerwin,

Director, Regulatory Support Division.

Request for Nominations of Experts to the EPA Office of Research and Development's Human Studies Review Board Advisory Committee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency (EPA) invites nominations from a diverse range of qualified candidates with expertise in the areas of toxicology, bioethics, and statistics to be considered for appointment to its Human Studies Review Board (HSRB) federal advisory committee. Submission of nominations will be made via the HSRB website at: <https://www.epa.gov/osa/human-studies-review-board>.

DATES: Nominations should be submitted by May 31, 2022, per instructions below.

ADDRESSES: Instructions on how to submit nomination will be provided at the HSRB website at <https://www.epa.gov/osa/human-studies-review-board>.

FOR FURTHER INFORMATION CONTACT: Any member of the public needing additional information regarding this Notice and Request for Nominations may contact Mr. Tom Tracy, Office of Science Policy, Office of Research and Development, Mail Code B343–01, 109 T.W. Alexander Drive, Research Triangle Park, NC 27711; via phone/voice mail at: (919) 541–4334; or via email at: tracy.tom@epa.gov. General information concerning the HSRB can be found at the following website: <https://www.epa.gov/osa/human-studies-review-board>.

SUPPLEMENTARY INFORMATION:

Background

On February 6, 2006, the Agency published a final rule for the protection of human subjects in research (71 FR 24 6138) that called for creating a new, independent human studies review board (*i.e.*, HSRB). The HSRB is a federal advisory committee operating in accordance with the Federal Advisory Committee Act (FACA) 5 U.S.C. App. 2 § 9 (Pub. L. 92–463). The HSRB provides advice, information, and recommendations to EPA on issues related to scientific and ethical aspects of human subjects research. The major objectives of the HSRB are to provide advice and recommendations on: (1) Research proposals and protocols that include human subjects; and (2) reports of completed research with human subjects. Typically, the HSRB reviews protocols and completed studies involving pesticide studies, such as worker exposure studies with agricultural handlers applying pesticides in field conditions; janitorial maintenance personnel applying antimicrobial pesticides in commercial settings; and field efficacy studies for skin applied insect repellent products. The HSRB reports to the EPA Administrator through EPA's Chief Scientist. General information concerning the HSRB, including its charter, current membership, and activities can be found on the EPA website at <https://www.epa.gov/osa/human-studies-review-board>.

HSRB members serve as special government employees or regular government employees. Members are appointed by the EPA Administrator for either two or three year terms with the possibility of reappointment for additional terms, for a maximum of six years of service. The HSRB convenes on average four times a year, with all of the meetings being virtual. The average workload for HSRB members is approximately 20 hours per meeting, including the time spent at the meeting. Responsibilities of HSRB members include reviewing extensive background materials prior to meetings of the Board, preparing draft responses to Agency charge questions, attending Board meetings, participating in the discussion and deliberations at these meetings, drafting assigned sections of meeting reports, and assisting with the finalization of HSRB reports. EPA compensates special government employees for their time and provides reimbursement for travel and other incidental expenses associated with official government business related to the HSRB meetings. EPA values and welcomes diversity. In an effort to
