National Marine Fisheries Service (NMFS) requires, as codified under 50 CFR Part 665, any person (1) fishing for, taking, retaining, or using a vessel to fish for Western Pacific coral reef ecosystem management unit species in the designated low-use Marine Protected Areas, (2) fishing for any of these species using gear not specifically allowed in the regulations, or (3) fishing for, taking, or retaining any Potentially Harvested Coral Reef Taxa (PHCRT) in the coral reef ecosystem regulatory area, to obtain and carry a permit. A receiving vessel must also have a transshipment permit for at-sea transshipment of coral reef ecosystem management unit species (CREMUS). The permit application form provides basic information about the permit applicant, vessel, fishing gear and method, target species, projected fishing effort, *etc.*, for use by NMFS and the Western Pacific Fishery Management Council in determining eligibility for permit issuance. The information is important for understanding the nature of the fishery and provides a link to participants. It also aids in the enforcement of Fishery Ecosystem Plan measures.

Revision: NMFS is adding a transshipment permit application, where previously a separate form was not required.

*Affected Public:* Business or other for-profit organizations.

*Frequency:* Annually and on occasion.
