

information collection is contained in sections 154(i) and 309(j)(5) of the Communications Act, as amended, 47 U.S.C. 4(i), 309(j)(5), and 1.2105, 1.2110, 1.2112 of the Commission's rules, 47 CFR 1.2105, 1.2110, 1.2112. Statutory authority for the revised information collection is contained in Section 6004 of Title VI of the Middle Class Tax Relief and Job Creation Act of 2012 (Pub. L. 112-96) (2012 Spectrum Act), 47 U.S.C. 1404.

Estimated Total Annual Burden: 750 hours.

Total Annual Costs: \$0

Nature and Extent of Confidentiality: Information collected on FCC Form 175 is made available for public inspection, and the Commission is not requesting that respondents submit confidential information on FCC Form 175.

Respondents seeking to have information collected on FCC Form 175 withheld from public inspection may request confidential treatment of such information pursuant to 0.459 of the Commission's rules, 47 CFR 0.459.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission is submitting this revised information collection to OMB under its emergency processing procedures. The Commission proposes to revise the currently approved information collection to include an additional certification that will implement Section 6004 of the 2012 Spectrum Act, 47 U.S.C. 1404. The Commission's auction rules and requirements are designed to ensure that the competitive bidding process is limited to serious qualified applicants, deter possible abuse of the bidding and licensing process, and enhance the use of competitive bidding to assign Commission licenses in furtherance of the public interest. The information collected on FCC Form 175 is used by the Commission to determine if an applicant is legally, technically, and financially qualified to participate in a Commission auction. Additionally, if an applicant applies for status as a particular type of auction participant pursuant to Commission rules, the Commission uses information collected on Form 175 to determine whether the applicant is eligible for the status requested. Commission staff reviews the information collected on FCC Form 175 for a particular auction as part of the pre-auction process, prior to the auction being held. Staff determines whether each applicant satisfies the Commission's requirements to participate in the auction and, if applicable, is eligible for the status as a particular type of auction participant it requested. The revised collection will enable the Commission to confirm that

a potential auction participant meets the criteria set forth in Section 6004 of the 2012 Spectrum Act, 47 U.S.C. 1404, by requiring that applicant to certify on FCC Form 175, under penalty of perjury, that the applicant and all of the related individuals and entities required to be disclosed on its application are not person(s) who have been, for reasons of national security, barred by any agency of the Federal Government from bidding on a contract, participating in an auction or receiving a grant. The Commission plans to continue to use the FCC Form 175 for all upcoming spectrum auctions, including those required or authorized to be conducted pursuant to the 2012 Spectrum Act, collecting only the information necessary for each particular auction. Thus, the additional certification that is the subject of this revised collection will not be required for all auctions.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404–639–7570 or send comments to LeRoy Richardson, 1600 Clifton Road, MS–D74, Atlanta, GA 30333 or send an email to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

The National Ambulatory Medical Care Survey (NAMCS): National Electronic Health Record Survey (NEHRS)—NEW—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Section 306 of the Public Health Service (PHS) Act (42 U.S.C. 242k), as amended, authorizes that the Secretary of Health and Human Services (DHHS), acting through NCHS, shall collect statistics on “utilization of health care” in the United States. The purpose of the National Electronic Health Record Survey (NEHRS) is to collect data annually from office-based physicians to measure progress in adopting electronic health records (EHRs) into their practices. Questions about the use of EHRs have been asked in the National Ambulatory Medical Care Survey (NAMCS) (OMB No. 0920–0234) since 2001. NAMCS NEHRS has been conducted as a mail survey supplement under NAMCS since 2008. NCHS is now seeking OMB approval to make NAMCS NEHRS an independent survey. The content will be similar to what was previously collected. A three-year approval is requested.

NAMCS NEHRS target universe consists of all non-Federal office-based physicians (excluding those in the specialties of anesthesiology, radiology, and pathology) who are engaged in direct patient care.

NAMCS NEHRS is the principal source of data on national and state-level EHR adoption in the United States. In 2008 and 2009, the sample size was 2,000 physicians annually. Starting in 2010, the annual sample size was

increased five-fold, from 2,000 physicians to 10,302 physicians. The increased sample size allows for more reliable national estimates as well as state-level estimates on EHR adoption.

NAMCS NEHRS, a voluntary survey, collects information on characteristics of physicians and their practices; the functionalities that are available in those practices' EHR systems; and information on physicians' intent to apply for meaningful use incentive payments. Physician Identification Number is collected to link NAMCS NEHRS data with available administrative data. These data, together with data from previous years, may be used to monitor the adoption of EHR as well as assessing what factors are associated with EHR adoption.

In addition to the regular NEHRS questionnaire, which will be fielded annually, in 2014 half the sample will receive the expanded NAMCS NEHRS which has additional questions related to effects that EHRs have on clinical workflow and efficiencies, as well as questions on access, quality, and costs associated with the delivery of health care. All 2014 NEHRS respondents (to either questionnaire) may receive the expanded survey in 2015 and 2016, as a follow-up to evaluate the effect of EHR adoption on the delivery of health care over time.

The table below provides the average annual burden for this survey. The first line represents an average of the half sample for 2014 and full samples for 2015 and 2016 that receive the regular NEHRS questionnaire. The second line represents the 2014 half sample that will receive the expanded questionnaire. The third line represents the full 2014 sample that will be followed up with the expanded questionnaire in 2015 and 2016. All of these are averaged over three years.

Users of NAMCS NEHRS data include, but are not limited to, Congressional offices, Federal agencies, state and local governments, schools of public health, colleges and universities, private industry, nonprofit foundations, professional associations, clinicians, researchers, administrators, and health planners. There is no cost to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN TABLE

Type of respondent	Form name	Sample size	Number of responses per respondent	Hours per response	Total burden (hours)
Office-based physicians	Regular NEHRS	8,585	1	20/60	2,862
Office-based physicians	Expanded NEHRS	1,717	1	30/60	859
