Description

In 1954, human remains representing, at minimum, one individual were removed from site 23PL1, commonly referred to as the Renner Site, in Platte County, MO. These human remains (catalogue number: I.1995.268 (part of 2000.7)) were excavated with the private landowner's permission during an archeological project conducted jointly by the Kansas City Museum, the University of Missouri, and the Kansas City Archaeological Society. The human remains—skull fragments—belong to a subadult of unknown sex. No associated funerary objects are present.

Cultural Affiliation

The human remains and associated funerary objects in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: geographical, historical, and expert opinion.

Determination

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, the Kansas City Museum has determined that:

- The human remains described in this notice represent the physical remains of at least one individual of Native American ancestry.
- There is a relationship of shared group identity that can be reasonably traced between the human remains described in this notice and the Pawnee Nation of Oklahoma.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that

the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains in this notice to a requestor may occur on or after July 10, 2023. If competing requests for repatriation are received, the Kansas City Museum must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. The Kansas City Museum is responsible for sending a copy of this notice to the Indian Tribe identified in this notice.

Description

The four cultural items listed in this notice were removed from a site along the American River (CA-SAC-157) in Sacramento County, CA.

In 1981, as a part of an archeology course, Richard Burrill, Cordova Senior High School, removed archeological items from CA-SAC-157. Subsequently, these items were donated to the Folsom Historical Society, and in 2016, they were transferred to the UC Davis Shields Library. The items include two lots of unassociated funerary objects, only one of which is present and accounted for in the UC Davis collections. The unassociated funerary objects are one lot consisting of abalone shells and one lot consisting of projectile points, flakes, a scraper, a net weight, and a clamshell disc bead.

On February 16, 1942, Jeremiah B. Lillard, Harry Wanzer, and the Sacramento County Board of Education gifted archeological items from CA-SAC-157 to the Phoebe A. Hearst Museum at the University of California, Berkeley. These items include one lot of unassociated funerary objects consisting of sinkers, mortars, and pestles.

On June 3, 1938, the Phoebe A. Hearst Museum of Anthropology at the University of California, Berkeley, acquired archeological items from CA-SAC-157 that were excavated by Robert Fleming Heizer and the University of California Field Party. These items include one lot of objects of cultural patrimony consisting of awls, ulnas, points, pestles, mortars, shells, and flakes.

Cultural Affiliation

The cultural items in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more

Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: anthropological, archeological, folkloric, geographical, historical, kinship, linguistic, oral traditional, and other relevant information or expert opinion.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, UC Davis and UC Berkeley have determined that:

- The three lots of cultural items described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual.
- The one lot of cultural items described above has ongoing historical, traditional, or cultural importance central to the Native American group or culture itself, rather than property owned by an individual.
- There is a relationship of shared group identity that can be reasonably traced between the cultural items and the Wilton Rancheria, California.

Requests for Repatriation

Additional, written requests for repatriation of the cultural items in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the cultural items in this notice to a requestor may occur on or after July 10, 2023. If competing requests for repatriation are received, UC Davis and UC Berkeley must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the cultural items are considered a single request and not competing requests. UC Davis and UC Berkeley are responsible for sending a copy of this notice to the Indian Tribe identified in this notice.
