DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Intent To Prepare a General Management Plan and Environmental Impact Statement for Buffalo National River, Arkansas

AGENCY: National Park Service, Interior.

ACTION: Notice of Intent to Prepare a General Management Plan and Environmental Impact Statement for Buffalo National River, Arkansas.

SUMMARY: Under the provisions of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), the National Park Service (NPS) is preparing an environmental impact statement (EIS) for the General Management Plan (GMP) for Buffalo National River, Arkansas. The GMP/EIS will establish the overall direction for Buffalo National River by setting broad management goals for managing the area over the next 15 to 20 years.

DATES: Participation in the planning process will be encouraged and facilitated by various means, including newsletters and public meetings. The NPS will conduct public scoping meetings to explain the planning process and to solicit opinion about issues to address in the GMP/EIS. Notification of the specific dates, times, and locations of all such meetings will be announced in the local media, in NPS newsletters, on the park's Web site at <http://www.nps.gov/buff>, and on the NPS's Planning, Environment and Public Comment (PEPC) Web site at <http://parkplanning.nps.gov>.

ADDRESSES: Additionally, anyone who wishes to comment on any issues associated with the GMP may submit comments by any one of several methods. One may mail or hand-deliver comments to Superintendent, Buffalo National River, 402 North Walnut, Harrison, Arkansas, 72601-1173. Comments also may be provided

electronically on the PEPC Web site at the address above. Additionally, information will be available for public review and comment from the Office of the Superintendent at the above address. Requests to be added to the project mailing list should be sent by mail to Superintendent—GMP, Buffalo National River, 402 North Walnut, Harrison, Arkansas, 72601-1173 or by e-mail to BUFF_Superintendent@nps.gov (please put "GMP" in the subject line).

Before including an address, telephone number, e-mail address, or other personal identifying information in the comments, you should be aware that your entire comment (including your personal identifying information) may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. We will make all submissions from organizations or businesses, or from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

FOR FURTHER INFORMATION CONTACT: Superintendent Kevin Cheri, Buffalo National River, 402 North Walnut, Harrison, Arkansas, 72601-1173, telephone 870-365-2700.

SUPPLEMENTARY INFORMATION: Buffalo National River, located in northwestern Arkansas, was established as America's first National River in 1972 to conserve and interpret an area containing unique scenic and scientific features, and to preserve as a free-flowing stream an important segment of the Buffalo River in Arkansas. Buffalo National River is currently operating under a 1977 Master Plan, which is seriously outdated, not only because of additions to the infrastructure, but because of current issues that were not addressed previously and that require new management direction. Buffalo National River also needs to identify major program areas and provide a context for activities and program planning.

The GMP/EIS will prescribe the resource conditions and visitor experiences that are to be achieved and maintained, based on such factors as Buffalo National River's purpose, significance, special mandates, the body of laws and policies directing its management, resource analysis, and the range of public expectations and concerns. The GMP/EIS will outline the kinds of resource management activities, visitor activities, and development that would be appropriate at Buffalo National River in the future.

A range of reasonable management alternatives will be developed through this planning process and will include, at minimum, a No-Action Alternative and a Preferred Alternative. Major issues the document will address include protection and management of cultural and natural resources, management of expired use and occupancy tracts, effects of adjacent land uses on Buffalo National River's resources, increased visitation and changing use patterns, commercial services, and future recreational opportunities.

To facilitate sound planning and environmental analysis, the NPS intends to gather information necessary for the preparation of the EIS and obtain suggestions and information from other Agencies and the public on the scope of issues to be addressed in the EIS. Comments and participation in this scoping process are invited. All interested persons, organizations, agencies, and Tribes are encouraged to submit comments and suggestions on issues and concerns that should be addressed in the GMP/EIS and the range of appropriate alternatives that should be examined.

Dated: February 4, 2009.

David N. Given,

Acting Regional Director, Midwest Region.

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Intent to Repatriate a Cultural Item: San Diego Museum of Man, San Diego, CA

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate a cultural item in the possession of the San Diego Museum of Man, San Diego, CA, that meets the definition of "object of cultural patrimony" under 25 U.S.C. 3001.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the cultural item. The National Park Service is not responsible for the determinations in this notice.

In 1986, one Wihosa mask was acquired from Sylvester Matthias, a Pima, from Komatke, AZ, who inherited it as the last person in the (hereditary) line. The cultural item is used in the Navichu ceremony.

Recorded information from museum records about the object of cultural patrimony states that the item was located on traditional Pima (Akimel O'odham) land. A tribal representative for the Gila River Indian Community of the Gila River Indian Reservation, Arizona, communicated to the San Diego Museum of Man that the item is an object of cultural patrimony and has ongoing historical, traditional, or cultural importance central to the Gila River Indian Community of the Gila River Indian Reservation itself, rather than being property owned by an individual. The Wihosa mask is still used in the Navichu ceremony and is not the property of a single individual. This object of cultural patrimony was previously described in a Notice of Intent to Repatriate in the **Federal Register** (73 FR 59653, October 9, 2008), and had been culturally affiliated to the Tohono O'odham Nation of Arizona. Since publication of the October 9, 2008 notice, the Gila River Indian Community of the Gila River Indian Reservation, Arizona, has claimed the Wihosa mask as culturally affiliated to them.

Officials of the San Diego Museum of Man have determined that, pursuant to 25 U.S.C. 3001 (3)(D), the one cultural item described above has ongoing historical, traditional, or cultural importance central to the Native American group or culture itself, rather than property owned by an individual. Officials of the San Diego Museum of Man also have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the object of cultural patrimony and the Gila River Indian Community of the Gila River Indian Reservation, Arizona.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the object of cultural patrimony should contact Philip Hoog, Archaeology and NAGPRA Coordinator, San Diego Museum of Man, 1350 El Prado, Balboa Park, San Diego, CA 92101, telephone (619) 239-2001, before April 10, 2009. Repatriation of the object of cultural patrimony to the Gila River Indian Community of the Gila River Indian Reservation, Arizona may proceed after that date if no additional claimants come forward.

The San Diego Museum of Man is responsible for notifying the Gila River Indian Community of the Gila River

Indian Reservation, Arizona and Tohono O'odham Nation of Arizona that this notice has been published.

Dated: February 12, 2009

Sangita Chari,

Acting Manager, National NAGPRA Program.
