SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-95200; File No. SR-ICC-2022-008]

Self-Regulatory Organizations; ICE Clear Credit LLC; Notice of Filing of Proposed Rule Change Relating to the Stress Testing Framework and the Liquidity Risk Management Framework

July 5, 2022.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on June 23, 2022, ICE Clear Credit LLC ("ICC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared primarily by ICC. The Commission is publishing this notice to solicit comments on the proposed rule change, security-based swap submission, or advance notice from interested persons.

I. Clearing Agency's Statement of the Terms of Substance of the Proposed Rule Change

The principal purpose of the proposed rule change is to revise the ICC Stress Testing Framework ("STF") and the ICC Liquidity Risk Management Framework ("LRMF"). These revisions do not require any changes to the ICC Clearing Rules ("Rules").

II. Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, ICC included statements concerning the purpose of and basis for the proposed rule change, security-based swap submission, or advance notice and discussed any comments it received on the proposed rule change, security-based swap submission, or advance notice. The text of these statements may be examined at the places specified in Item IV below. ICC has prepared summaries, set forth in sections (A), (B),

and (C) below, of the most significant aspects of these statements.

(A) *Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change*

(a) Purpose

ICC proposes revising the STF and LRMF to introduce new stress scenarios, clarify existing stress scenarios, and make other minor edits. ICC believes the proposed changes will facilitate the prompt and accurate clearance and settlement of securities transactions and derivative agreements, contracts, and transactions for which it is responsible. ICC proposes to move forward with implementation of these changes following Commission approval of the proposed rule change. The proposed rule change is described in detail as follows.

I. STF

The proposed amendments to the STF introduce new stress scenarios related to the Coronavirus pandemic and oil price war (the "COVID-19/Oil Crisis"), clarify existing stress scenarios related to credit default index swaptions ("index options"), and make other minor edits.

The proposed changes amend Section 5.1 containing the historically observed extreme but plausible market scenarios. ICC proposes a minor edit to abbreviate a term. ICC proposes to introduce additional stress scenarios related to the COVID-19/Oil Crisis. ICC previously introduced price-based stress scenarios related to the COVID-19/Oil Crisis in the STF, which replicate observed instrument price changes during this period.³ ICC proposes to incorporate complementing spread-based stress scenarios related to the COVID-19/Oil Crisis, which reflect observed relative spread increases and decreases during this period (the "COVID-19/Oil Crisis Spread Scenarios"). Additionally, the stress scenarios related to index options (*i.e.*, the stress options-implied Mean Absolute Deviation ("MAD") scenarios) would be moved into a separate section and corresponding references throughout the STF would accordingly refer to this new Section 9.

ICC proposes additional clarifications in Section 5 and throughout the STF. To distinguish from the COVID-19/Oil Crisis Spread Scenarios, ICC would refer to the price-based stress scenarios as the COVID-19/Oil Crisis Price Scenarios in Section 5.2 and throughout the STF. ICC also proposes to incorporate the COVID-19/Oil Crisis Spread Scenarios
