The statement should be addressed to the Wekiva River System Advisory Management Committee, National Park Service, 15 State Street, Boston, MA 02109.

The Wekiva River System Advisory Management Committee was established by Public Law 106-299 to assist in the development of the comprehensive management plan for the Wekiva River System and provide advice to the Secretary in carrying out management responsibilities of the Secretary under the Wild and Scenic River Act (16 U.S.C. 1274). Efforts have been made locally to ensure that the interested public is aware of the meeting dates. However, due to unanticipated technical problems, the National Park Service was unable to publish this **Federal Register** notice more than 15 days in advance of the February 7 meeting. Rescheduling the meeting would create an unnecessary burden for members of the public who have already arranged their schedules around that date.

Notice of Inventory Completion: American Museum of Natural History, New York, NY

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains in the possession of the American Museum of Natural History, New York, NY. The human remains were collected from Umatilla County, OR, and Walla Walla County, WA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by the American Museum of Natural History professional staff in consultation with representatives of the Confederated Tribes of the Umatilla Reservation, Oregon.

In 1882, human remains representing a minimum of four individuals were collected from sand dunes in Umatilla, Umatilla County, OR. The human remains were purchased by the American Museum of Natural History from Mr. James Terry in 1891. No known individuals were identified. No associated funerary objects are present.

The individuals have been identified as Native American based on their likely association with a Native American village, the presence of cranial reshaping in some of the human remains, and the collector's practice of only collecting cultural items related to Native Americans from the United
