

Summary of This Action

All sources subject to the requirements of 40 CFR parts 60, 61, and 63 are also subject to the equivalent requirements of the above-mentioned state or local agencies.

This notice informs the public of delegations to the above-mentioned agencies of the above-referenced Federal regulations.

Authority: This notice is issued under the authority of sections 101, 110, 112, and 301 of the CAA, as amended (42 U.S.C. 7401, 7410, 7412, and 7601).

Dated: January 6, 2007.

John B. Askew,

Regional Administrator, Region 7.

BILLING CODE 6560-50-P

DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration****49 CFR Part 219**

[Docket No. 2001-11213, Notice No. 10]

RIN 2130-AA81

**Alcohol and Drug Testing:
Determination of Minimum Random
Testing Rates for 2007**

AGENCY: Federal Railroad Administration (FRA), DOT.

ACTION: Notice of determination.

SUMMARY: Using data from Management Information System annual reports, FRA has determined that the 2005 rail industry random testing positive rates were 0.73 percent for drugs and 0.17 percent for alcohol. Because the industry-wide random drug testing positive rate has remained below 1.0 percent for the last two years, the Federal Railroad Administrator (Administrator) has determined that the minimum annual random drug testing rate for the period January 1, 2007,

through December 31, 2007, will remain at 25 percent of covered railroad employees. In addition, because the industry-wide random alcohol testing violation rate has remained below 0.5 percent for the last two years, the Administrator has determined that the minimum random alcohol testing rate will remain at 10 percent of covered railroad employees for the period January 1, 2007, through December 31, 2007.

DATES: This notice is effective upon publication.

FOR FURTHER INFORMATION CONTACT:

Lamar Allen, Alcohol and Drug Program Manager, Office of Safety Enforcement, Mail Stop 25, Federal Railroad Administration, 1120 Vermont Avenue, NW., Washington, DC 20005 (telephone 202 493-6313); or Kathy Schnakenberg, FRA Alcohol/Drug Program Specialist (telephone 816 561-2714).

SUPPLEMENTARY INFORMATION:**Administrator's Determination of 2007
Minimum Random Drug and Alcohol
Testing Rates**

In a final rule published on December 2, 1994 (59 FR 62218), FRA announced that it will set future minimum random drug and alcohol testing rates according to the rail industry's overall positive rate, which is determined using annual railroad drug and alcohol program data taken from FRA's Management Information System. Based on this data, the Administrator publishes a **Federal Register** notice each year, announcing the minimum random drug and alcohol testing rates for the following year. See 49 CFR 219.602, 608.

Under this performance-based system, FRA may lower the minimum random drug testing rate to 25 percent of covered railroad employees whenever the industry-wide random drug positive rate is less than 1.0 percent for two calendar years while testing at a 50 percent minimum rate. For both drugs and alcohol, FRA reserves the right to

consider other factors, such as the number of positives in its post-accident testing program, before deciding whether to lower annual minimum random testing rates. If the industry-wide random drug positive rate is 1.0 percent or higher in any subsequent calendar year, FRA will return the minimum random drug testing rate to 50 percent of covered railroad employees.

If the industry-wide random alcohol violation rate is less than 1.0 percent but greater than 0.5 percent, the minimum random alcohol testing rate will be 25 percent of covered railroad employees. FRA will raise the minimum random rate to 50 percent of covered railroad employees if the industry-wide random alcohol violation rate is 1.0 percent or higher in any subsequent calendar year. FRA may lower the minimum random alcohol testing rate to 10 percent of covered railroad employees whenever the industry-wide violation rate is less than 0.5 percent for two calendar years while testing at a higher rate.

In this notice, FRA announces that the minimum random drug testing rate will remain at 25 percent of covered railroad employees for the period January 1, 2007, through December 31, 2007, because the industry random drug testing positive rate was below 1.0 percent for the last two years (.073 in 2005 and .094 in 2004). The minimum random alcohol testing rate will remain at 10 percent of covered railroad employees for the period January 1, 2007, through December 31, 2007, because the industry-wide violation rate for alcohol has remained below 0.5 percent for the last two years (.017 in 2005 and .018 in 2004). Railroads remain free, as always, to conduct random testing at higher rates.

Issued in Washington, DC on January 9, 2007.

Joseph H. Boardman,
Administrator.
