Please reference OMB Control No. 3124–0012 with your questions.

SUPPLEMENTARY INFORMATION: MSPB intends to request approval for a reinstatement and revision of a previously approved information collection and seeks a three-year renewal of its MSPB's Generic Clearance Request for Voluntary Customer Surveys, OMB Control No. 3124–0012. Executive Order 12862, Setting Customer Service Standards, mandates that agencies identify their customers and survey them to determine the kind and quality of services they want and their level of satisfaction with existing services. In addition, OMB Circular A–11, Part 6, Section 280—Managing Customer Experience and Improving Service Delivery, provides guidelines for gathering customer feedback. More recently, the 21st Century Integrated Digital Experience Act (IDEA) requires agencies to use quantitative data from their public-facing websites to improve digital service delivery (Pub. L. 115–336).

Customers and stakeholders include persons who file appeals with MSPB on agency action taken against them (appellants), their representatives, and representatives of the agency which took the action; and Federal officials and members of the public (academicians, researchers, consultants, and web users) who read and use the findings of reports issued by MSPB's Office of Policy and Evaluation (OPE) or who are interested in MSPB's role in overseeing the Office of Personnel Management.

Over the past several years, OPE has used customer satisfaction surveys to evaluate how well MSPB is serving its customers in terms of their perceptions of agency timeliness, fairness, accessibility, and sensitivity in deciding appeals. OPE has also used customer surveys to determine the usefulness of reports issued. As a result of the survey feedback, OPE has established baseline performance measures for both appeals processing and merit systems review responsibilities. OPE has instituted a number of changes to both these processes as a result of feedback obtained from stakeholders. OPE plans to use customer surveys periodically over the next three years to measure the success of changes and to attempt to

identify additional areas where improvements can be made. Stakeholder views are important measures which may be used to report agency performance under the Government Results and Performance Act (GPRA) as amended by the GPRA Modernization Act of 2010.

This EMR will be used in support of the TREAT Astronaut Act to generate medical records of medical care, diagnosis, treatment, surveillance examinations (e.g., flight certification, special purpose and health maintenance), and exposure records (e.g., hazardous materials and ionizing radiation). Management and utilization of the EMR at JSC, OHB clinics will be carried out in support of the TREAT Astronaut Act; Public Law 115–10. The TREAT Astronaut Act is subsection 441 within the National Aeronautics and Space Administration Transition Authorization Act of 2017 (115th Congress, <https://www.congress.gov/115/plaws/pub10/PLAW-115pub10.pdf>). The goal is to maintain digital medical records of routine health care, emergency treatment, and scheduled examinations for active or retired astronauts in order to develop a knowledge base and address gaps in services in support of medical monitoring, diagnosis and treatment of conditions associated with human space flight as stated in Public Law 115–10.

SUPPLEMENTARY INFORMATION:

OMB Number: 3133–0094.

Title: Suspicious Activity Report (SAR) by Depository Institutions.

Type of Review: Extension of a currently approved collection.

Abstract: The Financial Crimes Enforcement Network (FinCEN), Department of the Treasury, was granted broad authority to require suspicious transaction reporting under the Bank Secrecy Act (BSA) (31 U.S.C. 5318(g)). FinCEN joined with the bank regulators in adopting and requiring reports of suspicious transactions on a consolidated suspicious activity report (SARs) form. This simplified the process through which banks inform their regulators and law enforcement about suspected criminal activity. In 2011, FinCEN transitioned from industry specific paper forms to one electronically filed dynamic and interactive BSA–SAR for use by all filing institutions. Information about suspicious transactions conducted or attempted by, at, through, or otherwise involving credit unions are collected through FinCEN's BSA E-filing system by credit unions. A SAR is to be filed no later than 30 calendar days from the date of the initial detection of facts that may constitute a basis for filing a SAR. If no suspect can be identified, the period for filing a SAR is extended to 60 days. FinCEN and law enforcement agencies use the information on BSA–SARs and the supporting documentation retained by the banks for criminal investigation and prosecution purposes.

Affected Public: Federally Insured Credit Unions.

Respondents: Any NCUA-supervised institution wishing to obtain an exemption from the Suspicious Activity Report requirements.

Estimated No. of Respondents: 4,760.

Estimated No. of Responses per Respondent: 36.64.

Estimated Total Annual Responses: 174,406.

Estimated Burden Hours per Response: 1.

Estimated Total Annual Burden Hours: 174,406.

Reason for Change: The burden went down because the number of respondents decreased.
