

CBDP FPEIS that can be found at <http://chembioeis.detrick.army.mil>.

Although numerous environmental documents dating back to the Biological Defense Research and Development Program Final Programmatic Environmental Impact Statement (April 1989) have been prepared analyzing the potential environmental consequences of various elements of the CBDP, no one document analyzes the potential environmental impacts of the full range of CBDP activities. In keeping with the purposes of the National Environmental Policy Act, DoD prepared such a document in the form of the CBDP FPEIS. This document creates an overarching framework that will continue to ensure fully informed government decisionmaking within the CBDP and will provide a single, up-to-date information resource for the public.
