

the standard was too subjective. The other commentors were in favor of a standard for frozen celery and proposed changes to the Table I-Allowances For Defects In Frozen Celery for grade "A" and "B," "sliced" and "diced" styles. These changes included a reduction in the sample size for Table I from a maximum-per 500 grams to maximum-per 283 grams for a 10-ounce portion, a separate allowance for seriously blemished units from blemished units, decrease the number of leaf material larger than a 1/4" from "20 pieces" to "10 pieces," change mechanical damage from "no more than 3 pieces" to "no more than 3% by weight" and for insect damaged change from "none" to "0.5%."

Based on these comments, AMS has revised the proposed standard for grades of frozen celery. AMS is proposing to establish the U.S. Standards for Grades of Frozen Celery following the standard format for U.S. Grade Standards. AMS is proposing to define "frozen celery" and establish "sliced" and "diced" as the style designations. The proposal will also define the quality factors that affect frozen celery and determine sample unit sizes for this commodity.

This proposal will establish the grade levels "A," "B" and "Substandard" and assign the corresponding score points for each level. The proposed tolerance for each quality factor as defined for each grade level will be established.

The grade of a sample unit of frozen celery will be ascertained by considering the factors of varietal characteristics flavor and odor, which are not scored; the ratings for the factors of color, defects, and character, which are scored; the total score; and the limiting rules which apply. This proposal will provide a common language for trade, a means of measuring value in the marketing of frozen celery, and provide guidance in the effective utilization of frozen celery. The official grade of a lot of frozen celery covered by these standards will be determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Products Thereof, and Certain Other Processed Food Products (§ 52.1 to 52.83).

This notice provides for a 60 day comment period for interested parties to comment on changes to the standards.
