

Agency (Ohio EPA) on November 4, 2024. Ohio EPA requested that EPA approve the revised rules for nitrogen oxide standards in the Ohio Administrative Code into Ohio's SIP. The revised rules include non-substantive updates to rule language and updates to referenced material. The revisions will assist with Ohio's efforts to attain and maintain the National Ambient Air Quality Standards for nitrogen dioxide.

DATES: Comments must be received on or before January 29, 2025.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R05-OAR-2024-0529 at <https://www.regulations.gov> or via email to langman.michael@epa.gov. For comments submitted at *Regulations.gov*, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from the docket. EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI), Proprietary Business Information (PBI), or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI, PBI, or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Delaney Kilgour, Air and Radiation Division (AR-18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886-1106, kilgour.delaney@epa.gov. The EPA Region 5 office is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays.

SUPPLEMENTARY INFORMATION: In the Final Rules section of this issue of the **Federal Register**, EPA is approving the state's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse

comments. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives such comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the Rules section of this **Federal Register**.

Dated: December 19, 2024.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 70

[EPA-R05-OAR-2024-0282; FRL-12468-01-R5]

Air Plan Approval; Ohio; Title V Operating Permit Rules Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve revisions to Ohio EPA's title V rules. These revisions include revisions to the definition of hazardous air pollutants and requirements for a permit statement of basis that are consistent with recent Federal rulemaking actions. Other changes are insignificant and part of the state's statutory five-year review of adopted regulations.

DATES: Comments must be received on or before January 29, 2025.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R05-OAR-2024-0282 at <https://www.regulations.gov> or via email to damico.genevieve@epa.gov. For comments submitted at *Regulations.gov*, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from the docket. EPA may publish any comment received to its public docket.

[241220–0333]

RIN 0648–BN29

International Fisheries; Pacific Tuna Fisheries; 2025–2026 Commercial Fishing Restrictions for Pacific Bluefin Tuna in the Eastern Pacific Ocean

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; notice of availability of a draft environmental assessment; request for comments.

SUMMARY: NMFS is proposing regulations under the Tuna Conventions Act of 1950, as amended (TCA), to implement Inter-American Tropical Tuna Commission (IATTC) Resolution C–24–02 (Measures for the Conservation and Management of Bluefin Tuna in the Eastern Pacific Ocean) adopted by the IATTC in September 2024. This proposed rule would implement annual and trip limits on United States commercial catch of Pacific bluefin tuna (*Thunnus orientalis*) (PBF) in the eastern Pacific Ocean (EPO) for 2025–2026. This action is necessary to conserve PBF and for the United States to satisfy its obligations as a member of the IATTC. In accordance with the National Environmental Policy Act (NEPA), NMFS also announces the availability of a draft environmental assessment (EA) that analyzes the potential effects of the associated proposed rule.

DATES: Comments on the proposed rule, draft environmental assessment, and supporting documents must be submitted in writing by January 29, 2025.

ADDRESSES: A plain language summary of this proposed rule is available at <https://www.regulations.gov/docket/NOAA-NMFS-2024-0146>.

You may submit comments on this document, identified by NOAA–NMFS–2024–0146 or the draft environmental assessment by:

- **Electronic Submission:** Submit all electronic public comments via the

Federal e-Rulemaking Portal. Go to <https://www.regulations.gov> and enter “NOAA–NMFS–2024–0146” in the Search box. Click on the “Comment” icon, complete the required fields, and enter or attach your comments.

Comments must be submitted electronically to ensure they are received, documented, and considered by NMFS. Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.) submitted voluntarily by the sender will be publicly accessible. Do not submit confidential business information, or otherwise sensitive or protected information. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous). Please specify whether the comments provided are associated with the proposed rule, draft environmental assessment, or other supporting documents.

Copies of the draft Regulatory Impact Review (RIR) and other supporting documents are available via the Federal eRulemaking Portal: <http://www.regulations.gov>, docket NOAA–NMFS–2024–0146 or contact Highly Migratory Species Branch, Amanda Munro, NMFS, Amanda.Munro@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Amanda Munro, NMFS, (619) 407–9284, Amanda.Munro@noaa.gov.

SUPPLEMENTARY INFORMATION:

Background on the IATTC

The United States is a member of the IATTC, which was established in 1949 and operates under the Convention for the Strengthening of the Inter-American Tropical Tuna Commission Established by the 1949 Convention between the United States of America and the Republic of Costa Rica (Antigua Convention).

The IATTC consists of 21 member nations and 5 cooperating non-member nations. The IATTC facilitates scientific research into, as well as the conservation and management of, tuna and tuna-like species in the IATTC Convention Area. The IATTC Convention Area is defined as waters of the EPO within the area bounded by the west coast of the Americas and by 50° N latitude, 150° W longitude, and 50° S latitude. The IATTC maintains a scientific research and fishery

monitoring program and regularly assesses the status of tuna, shark, and billfish stocks in the EPO to determine appropriate catch limits and other measures to promote sustainable fisheries and prevent overexploitation.

The text of the Antigua Convention can be found here: https://www.iattc.org/PDFFiles/IATTC-Instruments/English/IATTC_Antigua_Convention%20Jun%202003.pdf.

International Obligations of the United States Under the Convention

As a Party to the Antigua Convention and a member of the IATTC, the United States is legally bound to implement decisions of the IATTC. The TCA, 16 U.S.C. 951 *et seq.*, directs the Secretary of Commerce, in consultation with the Secretary of State and, with respect to enforcement measures, the U.S. Coast Guard, to promulgate such regulations as may be necessary to carry out the United States’ obligations under the Antigua Convention, including recommendations and decisions adopted by the IATTC. The authority of the Secretary of Commerce to promulgate such regulations has been delegated to NMFS. All resolutions adopted by the IATTC can be found online: <http://iattc.org/ResolutionsActiveENG.htm>.

Pacific Bluefin Tuna Stock Status

In 2011, NMFS determined overfishing was occurring on PBF (76 FR 28422, May 17, 2011), which is considered a single Pacific-wide stock. In 2013, based on the results of a stock assessment conducted by the International Scientific Committee for Tuna and Tuna-like Species in the North Pacific Ocean (ISC), NMFS determined that PBF was not only subject to overfishing, but was also overfished (78 FR 41033, July 9, 2013). Subsequently, based on the results of the 2014, 2016, 2018, and 2020 ISC stock assessments, NMFS determined that PBF continued to be overfished and subject to overfishing (See 80 FR 12621, March 10, 2015; 82 FR 18434, April 19, 2017; 84 FR 19905, May 7, 2019; 86 FR 9910, Feb. 17, 2021).

Since 2016, the IATTC and the Northern Committee (NC) to the Western and Central Pacific Fisheries Commission (WCPFC) have held annual joint working group meetings intended to develop a Pacific-wide approach to management of PBF. Joint IATTC–WCPFC NC Working Group (JWG) recommendations have included establishing rebuilding targets and criteria that must be met before considering catch limit increases. Conservation measures adopted by the
