**Ecosystem Restoration Policy**

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice of final directive.

**SUMMARY:** The Forest Service is issuing a permanent Ecosystem Restoration policy that replaces the Interim Directive, "Ecological Restoration and Resilience Policy," in Forest Service Manual (FSM) 2020. The policy provides broad guidance for restoring ecosystems on National Forest System lands so that they are self-sustaining and, if subject to disturbances or environmental change, have the ability to reorganize and renew themselves. This policy recognizes the adaptive capacity of restored ecosystems, the role of natural disturbances, and uncertainty related to climate and other environmental factors.

**DATES:** This directive is in effect May 27, 2016.

**FOR FURTHER INFORMATION CONTACT:** Jim Alegria, Forest Management Staff, USDA Forest Service, Mailstop 1103, 1400 Independence Avenue SW., Washington, DC 20250; phone: 202-205-1787.

Individuals who use telecommunications devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Standard Time, Monday through Friday.

**SUPPLEMENTARY INFORMATION:****Background and Need for the Directive**

The need for reestablishing and retaining resilience of National Forest System lands and resources to achieve sustainable management and provide a broad range of ecosystem services is widely recognized, and the Forest Service has conducted restoration-related activities for decades. In 2008, the Chief of the Forest Service determined that a national policy was needed to ensure a consistent and cohesive approach to reestablish and retain ecological resilience on National Forest System lands and for National Forest System resources. An interim directive was first issued on September 22, 2008, and was reissued on March 3,
