SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC issued two exemptions in response to requests from the licensee dated November 20, 2020, and supplemented on December 9 and 10, 2020. The exemptions afford the licensee temporary relief from a certain requirement of part 73 of title 10 of the *Code of Federal Regulations* (10 CFR), “Physical Protection of Plants and Materials.”

The exemptions from 10 CFR part 73, appendix B, “General Criteria for Security Personnel,” section VI, “Nuclear Power Reactor Training and Qualification Plan for Personnel Performing Security Program Duties,” subsection VI.C.3(I)(1) for Holtec Decommissioning International, LLC (for Oyster Creek Nuclear Generating Station and Pilgrim Nuclear Power Station), will help to ensure that these regulatory requirements do not unduly

limit licensee flexibility in using personnel resources in a manner that most effectively manages the impacts of the COVID-19 PHE on maintaining the required security posture at the facilities, while performing decommissioning activities and the implementation of the licensees’ NRC approved security plans, protective strategy, and implementing procedures. The licensee has committed to certain security measures to ensure response readiness and for their security personnel to maintain performance capability.

The NRC is periodically providing this compiled listing of related exemptions using a single **Federal Register** notice for COVID-19 related exemptions, instead of issuing individual **Federal Register** notices. The compiled listing provides transparency regarding the number of exemptions the NRC is issuing related to a given

regulatory requirement. Additionally, the NRC publishes a list of approved licensing actions related to the COVID-19 PHE on its public website at <https://www.nrc.gov/about-nrc/covid-19/materials/storage.html> and <https://www.nrc.gov/about-nrc/covid-19/materials/decommissioning.html>.

II. Availability of Documents

The following table provides the facility name, docket number, document description, and ADAMS accession numbers for documents related to each exemption issued. Additional details on each exemption issued, including the exemption request submitted by the respective licensee and the NRC’s decision, are provided in each exemption approval listed in the tables. For additional directions on accessing information in ADAMS, see the **ADDRESSES** section of this document.
