BILLING CODE 6735-01-M

U.S. NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: Policy Statement for the "Criteria for Guidance of States and NRC in Discontinuance of NRC Regulatory Authority and Assumption Thereof By States Through Agreement," Maintenance of Existing Agreement State Programs, Request for Information through the Integrated Materials Performance Evaluation Program (IMPEP) Questionnaire, and Agreement State Participation in IMPEP.

2. Current OMB approval number: 3150-0183.

3. How often the collection is required: There are four activities that occur under this collection: IMPEP reviews conducted no less frequently than every four years; for States interested in becoming Agreement States; participation by Agreement States in the IMPEP reviews; and annual requirements for Agreement States to maintain their programs.

4. Who is required or asked to report: Any State receiving Agreement State status by signing Section 274b agreements with the NRC and any State

interested in becoming an Agreement State. Presently, there are 32 Agreement States.

5. The number of annual respondents: 32.

6. The number of hours needed annually to complete the requirement or request: For States interested in becoming an Agreement State: Approximately 4,300 hours. For Agreement State participation in 9 IMPEP reviews (8 State and 1 NRC Region): 324 hours (an average of 36 hours per review). For maintenance of existing Agreement State programs: 239,040 hours (an average of 7,470 hours per State). For Agreement State response to 8 IMPEP questionnaires: 424 hours (an average of 53 hours per program). The total number of hours annually is 244,088 hours.

7. Abstract: States wishing to become an Agreement State are requested to provide certain information to the NRC as specified by the Commission's Policy Statement, "Criteria for Guidance of States and NRC in Discontinuance of NRC Regulatory Authority and Assumption Thereof By States Through Agreement." Agreement States need to ensure that the Radiation Control Program under the Agreement remains adequate and compatible with the requirements of Section 274 of the Atomic Energy Act (Act) and must maintain certain information. NRC conducts periodic evaluations through IMPEP to ensure that these programs are compatible with the NRC's, meet the applicable parts of the Act, and are adequate to protect public health and safety.

Submit, by February 13, 2001, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F23, Rockville, Maryland 20852. OMB clearance requests are available at the NRC worldwide web site (<http://www.nrc.gov/NRC/PUBLIC/OMB/index.html>). The document will be available on the NRC home page for

60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Brenda Jo. Shelton, U.S. Nuclear Regulatory Commission, T-6 E6, Washington, DC 20555-0001, by telephone at 301-415-7233, or by Internet electronic mail at BJS1@NRC.GOV.

Dated at Rockville, Maryland, this 11th day of December 2000.

For the Nuclear Regulatory Commission.

Brenda Jo. Shelton,
NRC Clearance Officer, Office of the Chief Information Officer.

U.S. NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection:

NRC Forms 540 and 540A, Uniform Low-Level Radioactive Waste Manifest (Shipping Paper) and Continuation Page
NRC Forms 541 and 541A, Uniform Low-Level Radioactive Waste Manifest, Container and Waste Description, and Continuation Page
NRC Forms 542 and 542A, Uniform Low-Level Radioactive Waste Manifest, Index and Regional Compact Tabulation
NRC Forms 540 and 540A: 3150-0164
NRC Forms 541 and 541A: 3150-0166
NRC Forms 542 and 542A: 3150-0165

3. How often the collection is required: Forms are used by shippers whenever radioactive waste is shipped. Quarterly reporting or less frequent is made to NRC depending on specific license conditions.

4. Who is required or asked to report: All NRC-licensed low-level waste facilities. All generators, collectors, and

processors of low-level waste intended for disposal at a low-level waste facility must complete the appropriate forms.

5. The number of annual respondents:

NRC Form 540: 2,500 licensees

NRC Form 541: 2,500 licensees

NRC Form 542: 22 licensees

6. The number of hours needed annually to complete the requirement or request:

NRC Form 540: 2,238 (0.167 hours per response)

NRC Form 541: 19,779 (1.48 hours per response)

NRC Form 542: 126 (0.167 hours per response)

7. *Abstract:* NRC Forms 540, 541, and 542, together with their continuation pages, designated by the "A" suffix, provide a set of standardized forms to meet Department of Transportation (DOT), NRC, and State requirements. The forms were developed by NRC at the request of low-level waste industry groups. The forms provide uniformity and efficiency in the collection of information contained in manifests which are required to control transfers of low-level radioactive waste intended for disposal at a land disposal facility. NRC Form 540 contains information needed to satisfy DOT shipping paper requirements in 49 CFR Part 172 and the waste tracking requirements of NRC in 10 CFR Part 20. NRC Form 541 contains information needed by disposal site facilities to safely dispose of low-level waste and information to meet NRC and State requirements regulating these activities. NRC Form 542, completed by waste collections or processors, contains information which facilitates tracking the identity of the waste generator. That tracking becomes more complicated when the waste forms, dimensions, or packagings are changed by the waste processor. Each container of waste shipped from a waste processor may contain waste from several different generators. The information provided on NRC Form 542 permits the States and Compacts to know the original generators of low-level waste, as authorized by the Low-Level Radioactive Waste Policy Amendments Act of 1985, so they can ensure that waste is disposed of in the appropriate Compact.

Submit, by February 13, 2000, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide web site: (<http://www.nrc.gov/NRC/PUBLIC/OMB/index.html>). The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Brenda Jo Shelton, U.S. Nuclear Regulatory Commission, T-6 E 6, Washington, DC 20555-0001, by telephone at (301) 415-7233, or by Internet electronic mail at BJSI@NRC.GOV.

Dated at Rockville, Maryland, this 11th day of December, 2000.

For the Nuclear Regulatory Commission.

Brenda Jo Shelton,

NRC Clearance Officer, Office of the Chief Information Officer.
