Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the

Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques for other forms of information technology. Send comments to Anne O'Connor, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project

X-ray Examination Program—
Extension—OMB No. 0920-0020

National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC). The X-ray Examination Program is a federally mandated program under the Federal Mine Safety and Health Act of 1977, PL-95-164. The Act provides the regulatory guidance for the administration of the National Coal Workers' X-ray Surveillance Program, a surveillance program to protect the health and safety of underground coal miners. This program requires the gathering of information from coal mine operators, participating miners, participating x-ray facilities, and participating physicians. The Appalachian Laboratory for Occupational Safety and Health (ALOSH), National Institute for Occupational Safety and Health (NIOSH) is charged with administration of this program. Based on an average of \$15.00 per hour for all respondents, the total cost to respondents is \$71,865.

Respondents	Number of respondents	Number of responses/ respondent	Avg. burden/ response in hours	Total burden in hours
Physicians/interpretation	20,000	1	3/60	1,000
Physician/certification	350	1	10/60	58
Miners	10,000	1	20/60	3,333
Mine operators	500	1	30/60	250
Facilities	300	1	30/60	150
Total	4,791

Dated: January 18, 2001.

Nancy Cheal,

Acting Associate Director for Policy, Planning, and Evaluation, Centers for Disease Control and Prevention (CDC).

[Program Announcement 01024]

Post-Infective Fatigue: A Model for Chronic Fatigue Syndrome; Notice of Availability of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2001 funds for a cooperative agreement program for Post-Infective Fatigue: A

Model for Chronic Fatigue Syndrome. This program addresses the "Healthy People 2010" focus areas of Disability and Secondary Conditions and Immunization and Infectious Diseases. Visit the internet site: <http://www.health.gov/healthypeople>.

The purpose of the program is to use active surveillance systems to identify and enroll individuals from documented acute viral and rickettsial infections that result in a post-infection fatigue of >3 months and prospectively follow those individuals to define pathophysiological processes of the post-infective fatigue state.
