Docket No. 040-08767, License No. SUC-1380, Department of the Army.

Docket No. 030-29462, License No. 45-23645-01NA, Department of the Navy.

Notice is hereby given that the Director, Nuclear Material Safety and Safeguards, has issued a Director's Decision on a petition dated April 3, 2005, filed by Mr. James Salsman, hereinafter referred to as the "Petitioner." The petition was supplemented on April 26, 2005, and May 4, 2005. The petition concerns depleted uranium (DU) munition licensees, specifically the Departments of the Air Force, Army, and Navy, and ATK Tactical Systems Company, LLC.

The petition requested the U.S. Nuclear Regulatory Commission (NRC) to fine the licensees and modify their licenses. The Petitioner's concerns revolve around the combustion products of DU munitions, specifically hexavalent uranium trioxide (UO₃).

Petitioner asserts that the licensees never attempted to detect, never detected, and failed to recognize that hexavalent UO₃ is a hazardous combustion product when DU

munitions are fired and heated at high temperatures. Petitioner contends that DU munitions licensed activity is unsafe and in violation of NRC requirements.

On May 4, 2005, Petitioner met with the NRC staff's Petition Review Board via telephone. The meeting gave the Petitioner and the licensees an opportunity to provide additional information and to clarify issues raised in the petition.

NRC staff sent a copy of the proposed Director's Decision to the Petitioner and to all DU munition licensees for comment on September 22, 2005. Petitioner responded with comments on October 19, 2005, and the licensees responded on October 12, 2005 (Army), and October 17, 2005 (Air Force). The comments are addressed in the Director's Decision.

The Director of the Office of Nuclear Material Safety and Safeguards has determined that insofar as Petitioner requests, NRC to require DU munition licensees to report incidents and overexposures to NRC, and to remediate facilities in accordance with current regulations, Petitioner's requests are granted. The Director also has decided to deny Petitioner's requests for modification and/or revocation of DU munitions licenses and for imposition of fines because Petitioner did not demonstrate that DU munitions licensees violated any NRC requirement, or that licensed activity creates conditions hazardous to the public health and safety or to the environment not already considered in licensing or addressed by NRC requirements. The reasons for these decisions are fully explained in the Director's Decision pursuant to 10 CFR 2.206 (DD-05-08), the complete text of which is available in Agencywide Document Access and Management System (ADAMS) for inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and via NRC's Web site (<http://www.nrc.gov>) on the World-Wide Web, under the "Public Involvement" icon. Accession Number for the Director's Decision is ML053460450.

A copy of the Director's Decision will be filed with the Secretary of the Commission, for the Commission's review, in accordance with 10 CFR 2.206 of the Commission's regulations. As provided for by this regulation, the Director's Decision will constitute the final action of the Commission 25 days after the date of the decision, unless the Commission, on its own motion, institutes a review of the Director's Decision in that time.

Dated at Rockville, Maryland, this 30th day of December 2005.

For the Nuclear Regulatory Commission

Robert C. Pierson,

Acting Director, Office of Nuclear Material Safety and Safeguards.

OFFICE OF PERSONNEL MANAGEMENT

Solicitation of Federal Civilian and Uniformed Service Personnel for Contributions to Private Voluntary Organizations—CFC Pilot Program for Department of Defense (DoD) Personnel Deployed Overseas

AGENCY: Office of Personnel Management (OPM).

ACTION: Notice.

SUMMARY: The Office of Personnel Management (OPM) is implementing a Combined Federal Campaign (CFC) pilot program for a selected number of local campaigns. This pilot program will allow Department of Defense (DoD) personnel deployed to certain warfighting areas of responsibility the opportunity to expand their giving options to include the Morale, Welfare, and Recreation (MWR) activities and/or to the local charities located within the corresponding stateside campaign associated with their home base, in addition to the National and International charities. OPM will assess the results of the pilot program and determine, in coordination with the Office of the Secretary of Defense, if a permanent change should be made to CFC regulations and DoD Directive 5035-1.

DATES: The Office of Personnel Management's Office of CFC Operations (OCFCO) will work with the CFC Overseas (CFC-O) Campaign to determine the campaigns eligible to participate in the pilot program for the 2006 CFC no later than March 2006. The OCFCO will provide guidance to the selected campaigns on how to process receipts from the CFC-O Campaign under the pilot program no later than June 30, 2006. Affected deployed donors whose assigned home base is located within one of these selected campaigns will be provided the two additional options for contributing to the 2006 CFC described below beginning on September 1, 2006 and ending approximately December 15, 2006.
