Discussion

In this document, the Bureau of Prisons (Bureau) reopens the comment period of the proposed rule published on April 6, 2010 (75 FR 17324) (2010 proposed rule) which proposed to establish and describe Communication Management Units (CMUs) by regulation. We now reopen the comment period for fifteen (15) additional days in order to allow inmates and interested parties additional opportunity to comment. We do so in response to current ongoing litigation with which the Bureau has been involved. We reopen the comment period for 15 days instead of the typical 60-day length of a proposed rule comment period because the rule was previously open for a 60-day public comment period in 2010 and we received over 700 comments during that time. We now reopen the comment period for a limited time to allow further comments from interested parties while striving to expedite the regulation development process.

The 2010 proposed rule codifies and describes the Bureau's procedures for designating inmates to, and limiting communication within, its Communication Management Units

(CMU). Currently, the Bureau operates two CMUs, separately located at the Federal Correctional Complex (FCC), Terre Haute, Indiana (established in December 2006), and the United States Penitentiary (USP), Marion, Illinois (established in March 2008). For further information, please see the proposed rule published on April 6, 2010 (75 FR 17324).
