SUPPLEMENTARY INFORMATION:

I. Abstract

The Office of Finance assists U.S. firms in identifying trade finance

opportunities and promotes the competitiveness of U.S. financial services in international trade. The Office of Finance interacts with private financial institutions in insurance, banking, leasing, factoring, barter, and counter trade; U.S. financing agencies, such as the Export-Import Bank and the Overseas Private Investment Corporation; and multilateral development banks, such as the World Bank, Asian Development Bank, and others. To facilitate contact between exporters and financial institutions, the Office of Finance is developing an interactive INTERNET trade finance match-making program to link exporters seeking trade finance with banks and other financial institutions. The information collected from financial institutions regarding the trade finance products and services they offer will be compiled into a database. An exporter will be able to electronically submit a one page form identifying the potential export transaction and type of financing requested. This information will be electronically matched with the financial institution(s) that meet the requirements of the exporter. After a match has been made, a message will be electronically sent to both the exporter and the financial institution containing information about the match, and contact information for either party to initiate communication. This program is designed to implement the Department of Commerce's goal of improving access to trade financing for small business exporters.

Extension of Time Limit for Preliminary Results of Full Five-Year Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of extension of time limit for preliminary results of full five-year ("sunset") reviews.

SUMMARY: The Department of Commerce is extending the time limit for the preliminary results of two full sunset reviews initiated on December 1, 1999 (64 FR 67247), covering an antidumping and countervailing duty order. Based on adequate responses from domestic and respondent interested parties, the Department of Commerce is conducting full sunset reviews to determine whether revocation of the antidumping duty order on aramid fiber formed of poly para-phenylene terephthalamide from the Netherlands and the countervailing duty order on grain-oriented electrical steel from Italy would be likely to lead to continuation or recurrence of dumping and countervailable subsidy, respectively. As a result of these extensions, the Department of Commerce intends to issue its preliminary results not later than June 19, 2000.

EFFECTIVE DATE: March 27, 2000.

FOR FURTHER INFORMATION CONTACT:

Martha V. Douthit or Melissa G. Skinner, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW,

Washington, DC 20230; telephone: (202) 482-5050, or (202) 482-1560, respectively.

Extension of Preliminary Results

In accordance with section 751(c)(5)(C)(v) of the Tariff Act of 1930, as amended ("the Act"), the Department of Commerce ("the Department") may treat a sunset review as extraordinarily complicated if it is a review of a transition order (i.e., an order in effect on January 1, 1995). Because the sunset reviews at issue concern transition orders within the meaning of section 751(c)(6)(C)(i) and (ii) of the Act, the Department has determined that the sunset reviews of the following antidumping and countervailing duty orders are extraordinarily complicated:

A-421-805 Aramid Fiber Formed of Poly Para-Phenylene Terephthalamide from the Netherlands

C-475-812 Grain-Oriented Electrical Steel from Italy

Therefore, in accordance with section 751(c)(5)(B) of the Act, the Department is extending the time limit for completion of the preliminary results of these reviews until not later than June 19, 2000.

Dated: March 20, 2000.

Richard W. Moreland,

Acting Assistant Secretary for Import Administration.

Republic of China ("PRC").¹ Subsequent to the publication of the preliminary results, we identified an inadvertent error in the Preliminary Results of Reviews section of the notice. Therefore, we are correcting and clarifying this inadvertent error.

The error lies in the last sentence of the next-to-last paragraph: "The Department will issue a notice of final results of this sunset review, which will include the results of its analysis of issues raised in any such comments, no later than June 26, 2000." This sentence should be replaced with: "The Department will issue a notice of final results of these sunset reviews, which will include the results of its analysis of issues raised in any such comments, no later than May 26, 2000."

EFFECTIVE DATE: March 27, 2000.

SUPPLEMENTARY INFORMATION:

Background

On January 19, 1996, the Department published the final results of the third administrative review in Brass Sheet and Strip from the Netherlands (61 FR 1324) (*Brass Final*), covering the period of review (POR) August 1, 1990 through July 31, 1991. On February 12, 1996, the Department received timely allegations from the petitioners and the respondent that the Department had made certain ministerial errors in the *Brass Final* that affected the final dumping margin. Although the Department agreed that certain of the allegations constituted ministerial errors, the Department was unable to issue a determination correcting these errors before the petitioners filed a complaint with the Court challenging the *Brass Final*. Therefore, the Department requested leave from the Court to correct these errors and on August 1, 1996, the Court granted the Department's request. See August 1, 1996 Order, *Hussey Copper, Ltd. v. United States*, Ct. No. 96-02-00578 (CIT dismissed August 7, 1997). Accordingly, on June 19, 1997, the Department published amended final results (62 FR 33395) (*Amended Brass Final*).

In the original *Brass Final*, the U.S. sales database used to calculate the dumping margin included all entries made during the POR, regardless of date of sale. The respondent alleged that in addition to correcting the ministerial errors identified in the Court's August 1, 1996 order, in the *Amended Brass Final* the Department also excluded several purchase price (PP) transactions and one exporter's sales price (ESP) transaction that entered the United States during, but were sold prior to, the POR. Consequently, the respondent claimed that these changes reduced the number of transactions included in the database from 391 to 150 and increased the weighted-average dumping margin to 5.85%. The Department agreed that it should not have omitted these transactions from the U.S. sales database and requested that the Court remand the
