46 CFR Parts 1, 10, 12, 28, 30, 32, 35, 67, 78, 97, 131, 161, 162, 167, 182, 196, 199, and 401

[USCG-2001-10224]

Technical Amendments; Organizational Changes; Miscellaneous Editorial Changes; and Conforming Amendments

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: This rule makes editorial and technical changes throughout Title 46 of the Code of Federal Regulations to update the title before it is recodified on October 1, 2001. It corrects addresses, updates cross-references, makes conforming amendments, and makes other technical corrections. This rule will have no substantive effect on the regulated public.

DATES: This final rule is effective September 30, 2001.

ADDRESSES: Documents as indicated in this preamble are available for inspection or copying at the Docket Management Facility, [USCG-2001-10224], U.S. Department of Transportation, room PL-401, 400 Seventh Street SW., Washington, DC, 20590-0001, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. You may also find this docket on the Internet at <http://dms.dot.gov>.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call Robert Spears, Project Manager, Standards Evaluation and Development Division (G-MSR-2), Coast Guard, telephone 202-267-1099. If you have questions on viewing the docket, call

Dorothy Beard, Chief, Dockets, Department of Transportation, telephone 202-366-9329.

SUPPLEMENTARY INFORMATION:

Discussion of the Rule

Each year, title 46 of the Code of Federal Regulations (CFR) is recodified on October 1. This rule makes editorial changes throughout the title, corrects addresses, updates cross-references, and makes other technical and editorial corrections to be included in the recodification. This rule does not change any substantive requirements of existing regulations.

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing an NPRM. This rule consists only of corrections, editorial changes, and conforming amendments to 46 CFR, chapters I and III. These changes will have no substantive effect on the public so publishing an NPRM and providing an opportunity for public comment is unnecessary. Under 5 U.S.C. 553(d)(3), the Coast Guard finds that, for the same reasons, good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Editorial changes that involve more than simply correcting erroneous letters or numbers—or a change of address—are discussed individually in the following paragraphs.

Parts 1 and 10

This rule adds the Director of Waterways Management (G-MW), to the Code of Federal Regulations, and it updates the distribution of functions assigned to several offices.

Parts 28, 35, 78, 97, 131, 167, and 196

In these parts, this rule updates information on obtaining nautical charts and publications by inserting references to the National Imagery and Mapping Agency.

Part 30

Since 1973, this section has referenced SOLAS 60. On July 26, 1990, a rulemaking titled “Replacement of References to SOLAS 60 With SOLAS 74” (55 FR 30658) was published to amend, among other things, this section and three other similar sections of title 46 (§§ 70.05-10, 90.05-10, and 188.05-10). All four amendatory instructions (# 11, 23, 32, and 68) were supposed to make the same change in the regulatory text of these four sections. They all should have read “Section * * * is amended by revising paragraphs (a)(2)(i) and (ii) to read as follows:”.

However, amendatory instruction # 11 in that rulemaking erroneously read “Section 30.01-6 is amended by revising paragraph (a) to read as follows:”. The instruction resulted in the deletion of paragraph (a)(2)(iii). This rule now corrects paragraph (a) by adding back the deleted language.

Part 32

On September 30, 1997, a rulemaking titled “Harmonization With International Safety Standards” (62 FR 51188) was published to amend, among other things, subpart 32.53. The Coast Guard determined that applicable SOLAS provisions regarding inert gas systems were equivalent to current Coast Guard regulations in terms of safety and operating requirements. Therefore, the Coast Guard incorporated SOLAS Chapter II-2 Regulation 62, containing the SOLAS requirements for inert gas systems, by reference in subpart 32.53 and removed §§ 32.53-15 through 32.53-85, which duplicate SOLAS requirements. The result was that § 32.53-5 now incorrectly references § 32.53-30, which was removed. This rule removes the incorrect cross-reference.

Parts 161, 162 and 401

This rule makes changes in these parts to reflect changes in the functional responsibilities for sections in these parts.

Part 199

This rule removes and reserves an obsolete paragraph, 46 CFR 199.620(m), and deletes an obsolete reference in a table.

Regulatory Evaluation

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979). We expect the economic impact of this rule to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of DOT is unnecessary. As this rule involves internal agency practices and procedures, it will not impose any costs on the public.

Collection of Information

This rule calls for no new collection of information under the Paperwork

Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

We have analyzed this rule under Executive Order 13132, Federalism, and have determined that this rule does not have implications for federalism under that Order.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their regulatory actions not specifically required by law. In particular, the Act addresses actions that may result in the expenditure of \$100 million or more in any one year by a State, local, or tribal government, in the aggregate, or by the private sector. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not concern an environmental risk to health or safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have

determined that it is not a “significant energy action” under that Order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

We considered the environmental impact of this rule and concluded that, under figure 2–1, paragraph (34)(a) and (b) of Commandant Instruction M16475.ID, this rule is categorically excluded from further environmental documentation. This exclusion is in accordance with paragraphs (34)(a) and (b), concerning regulations that are editorial or procedural and concerning internal agency functions or organization. A “Categorical Exclusion Determination” is available in the docket where indicated under

ADDRESSES.
