Federal Highway Administration

Surface Transportation Environment and Planning Cooperative Research Program (STEP)

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice.

SUMMARY: Section 5207 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) established the Surface Transportation Environment and Planning Cooperative Research Program (STEP). The general objective of the STEP is to improve understanding of the complex relationship between surface transportation, planning, and the environment. SAFETEA-LU provides \$16.875 million per year for fiscal years (FY) 2006-2009 to implement this new cooperative research program. The STEP is the primary source of funds to conduct all Federal Highway Administration research on planning and environmental issues. In addition, Congress mandated several special studies and STEP will be the funding source for those projects.

The purpose of this notice is to announce revisions to the STEP implementation strategy for FY 2009 and to request suggested lines of research for the FY 2009 STEP via the STEP Web site at <http://www.fhwa.dot.gov/hep/step/index.htm>.

DATES: Suggestions for lines of research should be submitted to the STEP Web site on or before September 22, 2008.

FOR FURTHER INFORMATION CONTACT:

Felicia Young, Office of Interstate and Border Planning, (202) 366-1263, Felicia.young@fhwa.dot.gov; or Wil Baccus, Office of the Chief Counsel, (202) 366-1396; Federal Highway Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday, except Federal holidays.

Background

Section 5207 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (Pub. L. 109-59, Aug. 10, 2005), established the Surface Transportation Environment and Planning Cooperative Research Program. The STEP is a new cooperative research program for environment and planning research created in section 507 of Title 23, United States Code, Highways (23 U.S.C. 507). The general objective of the STEP is to improve understanding of the complex relationship between surface transportation, planning, and the environment.

SAFETEA-LU established five priority areas for STEP research. These priority funding areas include: (1) Develop more accurate models for evaluating transportation control measures and system designs for use by State and local governments to meet environmental requirements; (2) improve understanding of transportation demand factors; (3) develop indicators of economic, social, and environmental performance of transportation systems to facilitate alternatives analysis; (4) meet additional priorities as determined by the Secretary in the strategic planning process identified in section 5208 of SAFETEA-LU; and (5) refine the scope and research emphases through outreach and in consultation with stakeholders.

Congestion reduction also has been identified as a priority research area for the strategic planning process identified in section 5208 of SAFETEA-LU and is a key element of other STEP priority research areas. Therefore, in addition to the aforementioned research priorities, the STEP will also address research
