ACTION: Notice of information collection, request for comments.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before November 13, 2020.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at Adrienne.thomas@noaa.gov. Please reference OMB Control Number 0648-0490 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Walter Ikehara, Fishery Information Specialist, National Marine Fisheries Service, Pacific Islands Region, 1845 Wasp Blvd., Bldg. 176, Honolulu, HI 96818, (808) 725-5175, walter.ikehara@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension, with a minor technical revision, of a

currently approved information collection.

The *Magnuson-Stevens Fishery Conservation and Management Act* established the Western Pacific Fishery Management Council (Council), to develop fishery ecosystem plans (FEP) for fisheries in the United States (U.S.) exclusive economic zone (EEZ) and high seas of the Pacific Islands region. These plans, if approved by the Secretary of Commerce, are implemented in Federal regulations by the National Oceanic and Atmospheric Administration's (NOAA) National Marine Fisheries Service (NMFS) and enforced by NOAA's Office of Law Enforcement (OLE) and the U.S. Coast Guard (USCG), in cooperation with state and territorial agencies. FEPs regulate fishing to prevent overfishing and to ensure the long-term productivity and social and economic benefit of the resources.

Regulations at 50 CFR 665, Subpart F, require that a vessel used to fish with longline gear for western Pacific pelagic management unit species (PMUS), land or transship longline caught PMUS, or receive longline caught PMUS from a longline vessel, within the Exclusive Economic Zone (EEZ) or management subarea around U.S. islands in the central and western Pacific must be registered to a valid Federal fishing permit. The regulations also require that a vessel used to fish with squid jig gear for pelagic squid species listed in the western Pacific PMUS within the EEZ or management subareas around U.S. islands in the central and western Pacific, or fish with troll and handline gear for PMUS in allowed locations within the EEZ around each of the Pacific Remote Island Areas (PRIA), must be registered to a valid Federal fishing permit.

Regulations at 50 CFR parts 665, Subparts D and E, require that the owner of a vessel used to fish for, land, or transship bottomfish management unit species (BMUS) using a large vessel (50 ft or longer) in the Guam management subarea, fish commercially for BMUS in the Commonwealth of the Northern Mariana Islands management subarea, or fish for BMUS in allowed locations within the EEZ around each of the PRIA, must register it to a valid Federal fishing permit.

Regulations at 50 CFR parts 665, Subparts B, C, D, and E, require that the owner of a vessel used to fish for, land, or transship crustacean management unit species (CMUS) in the EEZs or management subareas around American Samoa, Hawaii, Guam, Northern Mariana Islands, or in allowed locations within the EEZ around each of the PRIA, must register it to a valid Federal

fishing permit. The regulations also require that a vessel used to fish for precious corals within the EEZ or management subarea around U.S. islands in the central and western Pacific must be registered to a valid Federal fishing permit for a specific precious coral permit area.

This collection of information is needed for permit issuance, to identify actual or potential participants in the fishery, determine qualifications for permits, and to help measure the impacts of management controls on the participants in the fishery. The permit program is also an effective tool in the enforcement of fishery regulations and facilitates communication between NMFS and fishermen.

This collection will be revised to remove the instruction to mail applications to NMFS as the office is currently unable to accept or process mail. Individuals will be able to submit applications electronically either through secure email or by applying directly through the National Permit System for the Hawaii longline limited entry permit.

II. Method of Collection

Respondents may submit applications and required documents via secure email, or via online application systems where implemented.

III. Data

American Samoa longline limited entry permit: renew or apply for additional permit via secure email—45 min; transfer—1 hour 15 min; permit appeal—2 hours. All other permits: apply via secure email—30 min; apply online—15 min.

Estimated Total Annual Burden Hours: 131.5

Estimated Total Annual Cost to Public: \$12,650

Respondent's Obligation: Mandatory
Legal Authority: 50 CFR 665

IV. Request for Comments

We are soliciting public comments to permit the Department to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this Information Collection Request. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
