

antidumping duty order on truck and bus tires from China.² In the **Federal Register** notice, we inadvertently stated that Commerce will instruct U.S. Customs and Border Protection to suspend liquidation of all shipments of subject merchandise for the two successor-in-interest producer/exporter combinations at their predecessor-in-interest producer/exporter combinations' cash deposit rate of 9.00 percent. This notice serves to correct the cash deposit rate listed in the *CCR Final Results* from 9.00 percent to 0.00 percent, which is the estimated weighted-average dumping margin adjusted for domestic pass-through subsidies and export subsidies found in the amended final determination of the companion countervailing duty investigation of this merchandise imported from China.³ No other changes have been made to the *CCR Final Results*.

This correction to the *Final Results* is issued and published in accordance with section 751(b)(1)(A) of the Tariff Act of 1930, as amended, and 19 CFR 351.216, 351.221(c)(3), and 351.224(e).

Assistant Secretary for Enforcement and Compliance.
